

HAYWARD OFFICERS BATTLE WITH DESPERATE CONVICT

TRYING TO HELP THE BURNED CITY

Extraordinary Powers for
the S. P. Board of
Supervisors.

Matter Being Heard in Executive
Session This After-
noon.

SACRAMENTO, June 6.—Routine business engaged the attention of both houses of the legislature for an hour this morning. The necessity for committee consideration of important measures necessitated the declaration of a recess until this afternoon, and in the meantime several committees are expected to prepare for adoption or amendment to the satisfaction of senate or assembly such bills or constitutional amendments as have been selected for earliest passage.

NEW CITY.
The assembly committee on constitutional amendment is this afternoon considering in executive session the amendment which was last evening considered at much length, and confers on the San Francisco board of supervisors extraordinary powers in providing for the rebuilding of the city upon new lines.

There has been no agreement on the report to be presented, and it is probable that some of the features objected to will be altered before the committee has finally passed upon it. Members of the San Francisco delegation, by which it was introduced, express themselves as willing to permit any amendments that may be deemed necessary for the protection of the people of San Francisco, and the committee is considering such amendments as have been suggested.

EXPENSES.
Both houses of the legislature agreed this morning to take advantage of the resolutions appropriating for each assemblyman and senator the sum of \$25 to defray contingent expenses. The passage of the resolutions was accomplished in each house with some opposition. In the senate there was a humorous speech by Senator Shortridge favoring the allowance of the money, and in the assembly there was an attempt to introduce a resolution providing for the return to the state of the money by any member who was unwilling to accept it.

Telegrams from the California delegation in Congress, announcing agreement on the report appropriating \$1,500,000 for army buildings at Fort Mason were read and applauded by the senators and assemblymen.

STUART NOMINATED IN PENNSYLVANIA

HARRISBURG, Pa., June 6.—The Republican state committee met today to nominate candidates for governor, lieutenant governor, auditor general, and secretary of internal affairs. Congressman Olmsted of Dauphin county was chosen temporary chairman. The slated candidates are:

Governor—Edwin S. Stuart of Philadelphia.
Lieutenant governor—Robert S. Murphy of Cambria county.
Auditor general—Robert K. Young of Tioga county.
Secretary of internal affairs—Henry Houck of Lebanon.

There was apparently no organized opposition to this ticket.

ALAMEDA, June 6.—Miss Edith Miller, a daughter of former City Trustee George R. Miller, and well known in local society, is dangerously ill at her home on Santa Clara avenue, suffering from lockjaw.

Miss Miller was taken with violent convulsions last Saturday night. Dr. E. N. Keys was called to attend her, and he pronounced her affliction to be tetanus. Miss Miller is a trained nurse, and it is thought that as she had a sore on her wrist, the lockjaw might have been the result of that.

Letterheads and envelopes
printed in up-to-date style at
THE TRIBUNE office.

MONARCHS MEET AND KISS THREE TIMES

EMPEROR FRANCIS JOSEPH OF AUSTRIA.

Emperor William of Germany Ar- rives in Vienna and Is Given a Warm Reception.

VIENNA, June 6.—Emperor William arrived here this morning and was greeted at the Northern railroad station by Emperor Francis Joseph in person. The meeting was marked by extreme cordiality, the monarchs kissing each other three times.

After introducing their suites the emperors proceeded to Schoenbrunn Castle.

On their arrival at the station near the castle the imperial party was met by the archdukes, the member of the German embassy, the Austrian ambassador to Germany and the principal military and civil authorities.

A regimental band on the platform played the Prussian national anthem.

Emperor William inspected the guard of honor, after which the monarchs drove to the castle. They were cheered along the route. A number of archduchesses awaited their majesties at the castle, where the German emperor subsequently received in audience Count Dr. Wekerle, the Hungarian premier, and Baron von Beck, the Austrian premier. Later Emperor William drove through the town and called on members of the Austrian imperial family.

RELIEF FUNDS WILL GO TO RIGHT PEOPLE

SAN FRANCISCO, June 6.—As there is some misapprehension on the part of the public as to what disposition will be made of the relief fund which has accumulated in the hands of the finance committee of the original citizens' committee appointed by Mayor Schmitz, the city chief executive this morning said:

"All of the money which has been so generously forwarded to the inhabitants of this city from all parts of the United States must be used for the purpose for which it was sent—the relief of the needy and destitute. In some quarters the opinion prevails that all necessity for relief will cease when General Greely relinquishes control of the relief work. This is not true. For many months thereafter it will be necessary to give relief to women and children who lost everything in the fire. So that the funds may be properly handled, I think possibly that a committee from the board of supervisors with nothing else to do should be appointed. If the supervisors do not take charge then I think that a committee of six or seven representative citizens should be appointed."

One of the purposes to which the money has been put is building the homeless. I think that say \$3,000,000 could be wisely spent in constructing small cottages of four and five rooms which could be rented to poor people at a nominal rent. If we do not do this there will be a great deal of suffering. None of the money sent here can be used in rebuilding any of the city's buildings, widening streets or other work that would not fall under the head of relief work."

ACCUSES HIS KIN OF BATTERY

As the result of a family row, Thomas Holton, Clara Holton and Hugo Withows landed in the police station last night, being charged by Charles Holton with battery. The trio were arrested at Sixth and Webster streets by Policemen McCready. As no complaint had been filed this morning, the cases were continued to June 7, pending the filing of formal charges.

RECORD OF DRUNKS SOMEWHAT SMALLER

Twenty-seven arrests for drunkenness was the record of the Police Department for the last twenty-four hours, and when the prisoners appeared in the Police Court this morning, nearly everyone had an excuse for being found drunk. Police Judges Smith and Samuels, however, were not disposed to accept excuses, and imposed the usual punishment, \$5 fine or three days imprisonment, in all but two cases.

SHOTS ARE FIRED AT MAN IN DARK

Lively Exchange of Bullets
In the Woods
In Country

Officers Believe They Have
Wounded the
Fugitive.

HAYWARD, June 6.—In Hollis Canyon, six miles to the east of this town, there was an exciting battle last night between George Teixiera, who escaped a year ago from the jail at Fairfield, and two deputies sent out by Constable A. W. Ramage of Hayward.

DEPUTIES FIRE.

The deputies fired ten or fifteen shots, which were replied to by the fugitive. It was almost dark at the time, and Teixiera at last escaped in the thick brush. The deputies are confident, however, that he was badly wounded, as just before he disappeared, he was staggering badly. Manuel Borge, one of the deputies, came into Hayward this morning for more ammunition, then went back to assist his companion, George A. Horn, an ex-Fisherton man, in continuing the hunt.

ESCAPED A YEAR AGO.

Teixiera, who has a bad record, escaped a year ago from the jail at Fairfield, Solano county, and word was sent all over the state to be on the lookout for him. Constable Ramage got word in May that he was in the country back of the Tesla coal mine, and sent a man to locate him. But Teixiera eluded the searcher.

RETURNED HOME.

Ramage believed that sooner or later Teixiera would return to his home in Hollis canyon, where his mother lived. Yesterday, hearing that some one looking like the fugitive had been seen in the vicinity Ramage sent Horn and Borge to watch the Teixiera home. They took up their station in the afternoon near the cabin, which is close to the edge of a gully and is thickly surrounded by brush. It was not until nearly 7:30 that Teixiera appeared, walking across the clearing toward the cabin.

SHOTS FIRED.

The two deputies, who were armed with shotguns and revolvers, stepped out and demanded that he surrender. Teixiera turned and fled, and the deputies immediately opened fire, shooting as they ran. It was but a short distance to the woods, and the fugitive was soon in the depths of the forest. Horn and Borge were right at his heels, but on account of the approaching darkness it was hard to see him.

BATTLE IN THE BRUSH.

Teixiera had fired at his pur-

(Continued on Page 2)

PUTER GOES TO BE TRIED FOR FELONY

S. A. D. PUTER.

Officers Will Not Take any Chances On Berkeley Man Escaping On Trip.

S. A. D. Puter, wanted for complicity in the land fraud cases in Oregon, was taken from the county jail last evening by Deputy United States Marshals Dingley and Richards, and are now on their way to Oregon, where Puter will be placed on trial for the offenses charged against him. He was captured in Alameda two weeks ago by Chief of Police Conrad and his aids.

Puter has been a fugitive from justice for many months, having left Oregon and gone east, and several months ago was apprehended by Secret Service Agent Burns at Boston, where Puter made a daring escape from him by pulling his pistol from his pocket and getting the drop on Burns, who was not looking for any resistance on the part of his man.

He was then lost track of until the police got wind of him at Alameda, and after some very clever work was captured. He is wanted in connection with some cases prosecuted by Francis J. Heney for the United States government in Oregon, and will, in all probability, get a vigorous prosecution. He did not attempt to fight last night, but no chances will be taken with the desperate prisoner.

SENATE GETS DOWN TO BUSINESS AT CAPITAL

SACRAMENTO, June 6.—In the senate this morning the finance committee made a favorable report recommending appropriations of \$25,000 for the state asylum at Agnew; \$72,500 for the Home for Feeble Minded at Glen Ellen, and \$25,000 for the state asylum at Ukiah.

CONTINGENT EXPENSES.

Senator Shortridge called for the report of the committee on contingent expenses and addressed the senate in support of the resolutions giving \$25 to each member. Senator Belshaw advised against acceptance of this money and opposition developed from several quarters, culminating when the chairman of the committee, Senator Wolf, stated that the committee was unanimously opposed to its adoption. The senate finally decided to accept the expense allowance by a vote of 21 to 14.

The senate finally passed the amended bill providing the method of quieting and re-establishing title to lands in San Francisco. Another bill finally passed creates a fund for the benefit and support of high schools and a third permits school boards to compromise claims for buildings in course of construction that were damaged by fire or earthquake.

ACCUSED OF STEALING HIS OWN HATCHET

A peculiar error in the wording of a complaint charging John Howard with petit larceny, caused a continuance of the case in department 2 of the police court when the case was called this morning. When Clerk John Mott read the complaint, it was discovered that John Howard was charged with having "willfully, maliciously and feloniously stolen, taken and carried away one hatchet, the property of John Howard."

GIRL TELLS STORY OF GUILTY LOVE

How Deacon Logan Took
Her Away From
Home

Met at Prayer Meetings and
Could Not Bare
to Part.

The courtship of Deacon Henry A. Logan, erstwhile pillar of the Baptist church, and Ethel Cook, the youthful Sunday school teacher, with whom he eloped and went to Oregon, was laid bare before judge and jury this morning by the examination of the young woman herself. Logan is charged with enticing away a minor child, but she is now seventeen years of age, and understands considerable of life and its ways.

GIRL ON STAND.

She was called to the stand this morning by Deputy District Attorney Everett Brown, and questioned closely as to those little nothings that are the warp and woof of courtship. He was a married man, and at their first meetings Logan was generally accompanied by his wife. Later she was left in the background by degrees, and after a time Logan went about to church prayer meetings and picnics without Mrs. Logan and in the company of Mrs. Mary Ross and her daughter, Ethel Cook.

HE WAS UNHAPPY.

It transpired that Logan was unhappy and that he had made up his mind to go away, and, according to a letter introduced and read to the jury, he felt that he could not go and leave Ethel behind, and as she wanted to go with him, he was going to take her away, she to travel in the woods and into the high school and let her finish her course, and that when the law should have made him free to marry again, he would make her his wife.

WENT TO A PICNIC.

The witness testified to going on a picnic with Logan and a number of others in a grove back in the Berkeley hills. A number of the younger ones paired off and went over the hills, and she and Logan got separated from the rest and got back late. They only talked about the woods and the flowers and trees, and said that there was nothing personal in their conversation.

TOOK A RIDE.

On another occasion they went down one evening to hear the band concert in the city hall square, and then took a car ride out to Piedmont. There were, however, no burning words of love spoken to her by Logan, and it was only a few days before the date set for his going away that they discovered the bond that united them, and she said that she did not want him to go away and leave her.

THEY ELOPED.

That was last October, and on the 11th of that month they went quietly down to the Sixteenth street station and took the train for Bedford, Or., where they were discovered, and Logan taken into custody, and their romance rudely shattered.

THE JURY.

The jury completed late yesterday afternoon to listen to the evidence in the case, is composed of the following: V. Chloupsk, A. C. Bates, W. P. Nutting, Timothy Nolan, G. R. Hoelt, R. L. Forney, Sylvester Merrill, A. A. Williamson, G. B. Lee, John Orr, John Luderman and E. C. Richardson.

MISS SUTTON WINS AGAIN AT TENNIS

LIVERPOOL, June 4.—In the preliminary round of the gentlemen's double in the northern championship tennis tournament at Alburgh, Lancashire, D. P. Rhodes and E. Sampson beat the Pease brothers, 6-4, 6-0, 6-2.

In the ladies' singles, first round, Miss May Sutton of Pasadena, Cal., beat Miss Sturton, 6-0, 6-1.

GROCERY AUCTION SALE

We have received instructions to sell the fine stock and fixtures of the Wreck grocery, late at 107 Clay street, between Eleventh and Twelfth, Friday, June 8th, at 10:30 a. m., comprising in part: Tea, coffee, sugar, apples, butter, cheese, vinegar, baking powder, soap, etc., etc. Figures complete, cash, coffee mill, show cases, etc. All must and must be sold.

J. A. MURK & CO., Auctioneers.

Books of all kinds bound and rebound at THE TRIBUNE office.

ARGENTINA DISPLEASED

DOES NOT LIKE PROGRAM FOR
PAN-AMERICAN CON-
GRESS.

WASHINGTON, June 6.—Argentina is not pleased with the program agreed upon for the third pan-American congress to be held in Rio Janeiro in July, and it will require all the skill of which Secretary Root is possessed to prevent the withdrawal of several of the Latin-American republics from the congress. Although Argentina is more dissatisfied than any other South or Central American power there are several republics which are far from pleased with the program and sympathize with the slight which Argentina feels.

DRAGO DOCTRINE
The Drago doctrine is the cause of Argentina's grievance. It was the desire of Mr. Portela, the Argentine minister, that the Drago doctrine should be one of the subjects considered at the Rio Janeiro congress. This doctrine, which was promulgated by the celebrated Argentine jurist L. F. Drago at the time of the Venezuelan blockade by Germany, Great Britain and Italy, holds that force cannot be used by one power to collect money owed to its citizens by another power.

After much discussion the committee on program for the congress prepared the following section relating to the general subject covered by the Drago doctrine:

A resolution recommending that the second peace conference at The Hague be requested to consider the extent to which the use of force for the collection of public debts is admissible.

This statement of the subject was very distasteful to Argentina and several other powers. It practically admitted that force is justifiable in some cases and provoked a great deal of comment.

The result was the re-statement of the subject in the following compromise terms:

PEACE CONFERENCE
"A resolution recommending that the second peace conference at The Hague be requested to consider whether and if at all to what extent the use of force for the collection of public debts is admissible."

This statement does not grant that the use of force is ever justified but is not a clear statement of the subject covered by the Drago doctrine in the opinion of a number of the countries which are to participate in the congress.

Mr. Drago who was named by Argentina as one of its delegates to the Rio Janeiro congress is reported to have announced that he does not care to attend and participate in the discussion of the program as agreed upon. Under the rules agreed upon a change in program can be effected at Rio Janeiro by the vote of two thirds of the countries represented and consequently there will doubtless be a strong effort to make changes in case the countries which are dissatisfied participate.

Many South American diplomats believe the Drago doctrine should not be submitted to The Hague for consideration but should be adopted by the powers on this continent without regard to what European countries may have to say about it. Several of the powers in the western part of South America are said to be in sympathy with Argentina's position on the Drago doctrine and interesting developments are expected.

NOT SATISFACTORY
Several other sections of the program are also unsatisfactory to a number of the powers which will participate in the deliberations. The arbitration section does not please Bolivia and several of its neighbors who wanted the section made so broad that it would also cover the disputes in the past as well as those which may arise hereafter. Colombia and several of the other western republics also desired the consideration of questions relating to commerce, passing over boundaries and the regulation of navigation on streams flowing through two or more countries but these subjects were not passed by the program committee and can be discussed at Rio Janeiro only by consent of two thirds of the powers represented.

**OFFICERS RAID
GAMBLING DEN**

ALAMEDA CHINESE CAUGHT
WITH MONEY ON TABLE AND
ARRESTED

THREE AND
W. J. Lester, a hardware merchant at 109 San Pablo avenue reported to the police this morning that on June 2 he had rented a Smith & Wesson .45 caliber revolver to a man named Wright. He has seen neither the gun nor the negro since.

Alfred Kessler, residing at 414 Telegraph avenue reported that his room had been entered by thieves on June 4 and that \$12 which he had concealed in a small canvas sack in his wardrobe had been discovered and stolen.

Mrs. Sands of 1813 Gess street states that her home was entered by burglars yesterday during her absence and that two gold rings and two watch chains of the same precious metal were stolen from one of the drawers of her bureau.

**ACCUSED OF CATCHING
BASS UNDER WEIGHT**

A. Trapani, I. Bardellini and A. Enesi, three Italian fishermen were arrested yesterday at fishermen wharf in San Francisco by Detective George Kite being booked at the Oakland police station on charges of having caught and shipped from Alameda county striped bass under the legal weight of three pounds. There has been much complaint of late of fishermen operating in San Pablo bay, and the police believe that the three men arrested are the principal offenders.

Their cases were called in department 1 of the police court this morning but as the defense was not ready to proceed they were continued. The three accused fishermen were released on \$100 cash bail in each case.

POPULATION ACROSS BAY IS ABOUT 140,000

SAN FRANCISCO, June 6.—From the census taken by the military authorities and by private concerns the present population of San Francisco is estimated at 110,000. These figures are probably incorrect. A conservative estimate of those not counted in the rough census is 40,000.

These figures might be depressing were it not for the fact that at least 100,000 persons and probably more are in Oakland, Alameda, Berkeley and surrounding towns awaiting merely suit-

able quarters before they return to San Francisco. They are still a part of this city and a large majority of them daily cross the bay to attend to business.

So, instead of having a population only slightly in excess of 100,000, San Francisco has in reality a nucleus of at least 250,000.

When the adjustment of insurance and the commencement of building operations, the population of this city will, in all probability double rapidly.

FATHER SEEKS LOST DAUGHTER

LETTER FROM FAR OFF FLORIDA
BRINGS A PATHETIC
APPEAL.

BERKELEY, June 6.—From the far off everglades of Florida comes the pathetic appeal of a father asking that his daughter and granddaughter victims of the fire in Francisco be located. Vilas Thompson of Orlando, Florida, through the Masonic lodge of Berkeley has asked that the police of the college town find for him his daughter Mrs. C. E. Farmer who was reported to be staying in Berkeley.

The matter was placed in the hands of Chief Vollmer of the local police but efforts to locate the missing mother and her daughter have as yet failed. All that could be learned of the missing girl was that after leaving Berkeley, where they stayed for three days, they went to Florida. But the police of that town cannot find a trace of them.

About a month ago a few days after the fire the mother appealed to the Berkeley relief committee to help aid in the search for her small daughter Blossom who was in San Francisco during the fire while she was at that time staying in Berkeley. It was through the efforts of Mrs. Phoebe Hines, one of the most popular women at the university that the mother and daughter were reunited.

Now comes the second phase in the incident. The letter from the father of the woman asking that Mrs. Farmer and her daughter be located. Accompanying the letter is a check for the railroad fares of the mother and her children asking that if they be found to send them to her father's home in Orlando, Florida.

Miss Hines at the time she was working to locate Blossom the five-year-old daughter of Mrs. Farmer, reports that the mother told her some of her past history. Mrs. Farmer said that she had married the man by that name some years ago. Later she married a man by the name of Cipp. She intended to get a divorce from him as soon as she settled after the excitement and shock of the fire.

Mrs. Farmer or Mrs. Cipp as she is sometimes called, was an actress in the East having been with the Frohman company for many years. She is a pretty woman about 30 years of age.

**STUDENT STILL
IS AT LIBERTY**

AUTHORITIES AWAIT FILING OF
COMPLAINT IN SHOOTING
CASE

The case of Joseph A. Tanager, the student at St. Mary's college who accidentally shot and killed Wade Davis, a fellow student at the college, is continued this morning to the grand jury filing of a complaint for manslaughter. If there is no complaint filed in the near future the case will be dropped as the two boys were dead friends and it is known that the cat dispute was the result of an accident.

**IMMENSE CHORUS
FOR BIG CONVENTION**

BERKELEY, June 6.—A mighty chorus of 100,000 is to be heard at a concert in the Greek theatre on the university grounds on Sunday afternoon July 8th. It will be one of the features of the California Endowment convention to be held in this city on July 14th to the 18th.

The chorus is being directed by Professor C. R. Stowell who is at present living in Berkeley.

Professor Stowell has composed a song especially for the June 14th event which will appear at the concert in a body. At least 200 delegates will be sent to the entertainment committee is now able to promise accommodation in the homes at \$4.00 and \$5.00 for the five nights of the convention or if it is found advisable a tent city will be established with the eating department in charge of Ernest Fox.

The expense of meals and other accommodations will be kept down to the minimum and it is believed that \$5.00 will cover all necessary expenses including the registration fee of fifty cents.

Miss Margie Smith is chairman of the entertainment committee. The day sessions will be held in the Presbyterian church adjacent to the university campus and the evening sessions in the Harmon gymnasium. The Sunday mass meeting will be in the Greek theatre.

FOLK TO MEET BRYANT.
NEW YORK, June 6.—William Howard Taft has charge of the reception to be arranged for William J. Bryan upon his arrival here from Europe announced today the appointment of Governor Folk of Missouri as chairman of the reception committee.

TRAIN CUTS OFF BIG TOE

EFFORT TO PICK UP BUNDLE
PROVES DISASTROUS TO
TRAVELER

Harry Mitchell, 44 years of age and living at 1407 Montgomery street in San Francisco lost his great toe under a Seventh street local train this morning, and was taken to the receiving hospital where the crushed member was amputated by Dr. W. H. Ingham.

In attempting to board the train just as it was about to start off he dropped a bundle. He stopped to pick this up and his foot slipped. He went down on to the track and the wheel of the car cut over the corner of his shoe and crushed the toe.

Hayward Officers Battle
(Continued from Page One)

suers just as he went into the woods. After he reached there he sheltered himself every time he had an opportunity, firing without taking time to aim. His shots were returned as often as the deputies could catch sight of him. Back and forth through the trees and underbrush, over stones and fallen logs, up and down hill, went the three men.

MAKES ESCAPE
Tixeria staggered at one volley, and darted into a patch of underbrush through which one could not go without almost crawling. Horn and Borge, coming up, circled around the clump of brush and fired in it, then entered and explored it in every direction. However they could not catch sight of Tixeria, who had evidently dodged through and reached the shelter of a deeply wooded canyon near at hand.

They spent hours tramping the woods, then remained in the vicinity all night. This morning Borge came to town for more ammunition, and at this writing the search is still going on.

RAISED NEAR HAYWARD.
Tixeria was reared in Hollis Canyon, and knows every foot of it. Several years ago he was warned by the local officers to keep away as he was a source of trouble stealing whatever he could lay his hands on. He has served ten years in the state prison being sent up from San Bernardino for horse stealing.

GOT VERY EASY MONEY

ACCEPTED CASH AND STOCK TO
HELP THE RAIL-
ROADS.

PHILADELPHIA, June 6.—The interstate commerce commission today continued its investigation of the relations of the Pennsylvania railroad officials and employees with various mining companies in the bituminous district. The first witness was G. S. Boyer, clerk in the office of A. W. Gibbs, superintendent of motive power.

Mr. Boyer said he had 200 shares of stock in the Jamison Coal Company, given him for his one-third interest in the MacLaren Coal Company. The MacLaren stock was given to him by Mr. Jamison. He also had ten shares in the Valley Coal Company, and fifteen in the Edri Coal Company, which were presented to him by Captain Alfred Hicks. Ten shares of Preston Coal Company stock were sent to him in an envelope. He was not certain who sent it, but thought it must have come from Joseph Aiken, a railroad man or H. A. Kuhn, an operator. All of these stocks were paid for by Mr. Boyer said also that he holds an interest amounting to \$6000 in undeveloped coal lands on the West Pennsylvania division. He paid for this stock in its entirety. Mr. Boyer's testimony was of a startling character. His stock holding was only a small portion of the gifts he admitted receiving from coal mining companies.

In his capacity as purchaser of fuel coal he testified, he had received from five companies an allowance of from three to five cents a ton on coal used by the railroad for fuel purposes. During the period from the latter part of 1903 to date he has received a total of more than \$46,000. The money was first sent to him in cash, but later cashiers' checks were sent to Cashier Hastings of the Second National Bank of Altoona and placed on deposit for Boyer. The companies which made him the allowances were the Graf Coal Company and Thomas Blythe & Company. The Graf Coal Company alone allowed him five cents a ton, and the Clearfield and Granton Company gave him a share in the profits which amounted to not less than four cents a ton. Blythe & Company gave him three cents a ton.

He was asked why he discriminated in favor of Blythe & Company and replied that he did not discriminate as the money came to him without solicitation or effort on his part. He believed that the money had been paid in the same manner to his predecessors in office and believed that he was only following the custom of the department.

**HARVARD PRIZE FOR
U. C. GRADUATE**

BERKELEY, June 6.—Word was received from Cambridge yesterday that William J. Musgrave of Berkeley has been awarded the graduate prize Musgrave was graduated from the University of California with the class of 1905.

Besides being a brilliant scholar he was a debater of note. In his senior year at the university he captured the annual Bonanza essay and debating contest. He is a member of the Phi Beta Kappa scholarship society and of the Phi Sigma Delta fraternity. Musgrave was awarded the Harvard clun scholarship from the Harvard men in San Francisco immediately after his graduation from the state university.

**The office Boy
and the Conditions
Today**

Well, things are going along all right. The bricklayers will soon be through laying brick the cornice men will have the ornaments in place and then down will come the band stand. Then the sidewalk will have the holes fixed in it—and this store will be ready for business just like it was before April 18th. But shucks it don't make so much difference in this business. You could build a ten foot fence in front of this store without any gates in it and you would see people carrying around folding step ladders so they could climb over the fence. It's what inside this store that draws the business into it. And it's the way the things inside of it turn out that keeps Mr. Heeseman in meat tickets. Oh we don't handle stuff that won't weigh up. And when we do find anything that won't tip the scales we write 23 on the package and back to the maker it goes. Every thing you buy here is as honest as the sun and guaranteed. So you run no risk.

TROUBLE FOR THE CZAR

PARLIAMENT WILL DEMAND DIS-
MISSAL OF CABI-
NET.

ST. PETERSBURG, June 6.—The lower house of parliament and the government are rapidly coming to close quarters and the conflict which became inevitable the moment the popular assembly presented its demands in the address to the throne cannot be much longer delayed.

EXCITEMENT INCREASES.
The excitement in the interior is increasing daily. Partial strikes have begun at Kiev, Odessa, Moscow and other cities and the peasants in some provinces are no longer restrainable and have commenced to seize the land of the proprietors. The leaders of the Constitutional Democrats in the lower house who far tactical reasons sought to postpone a conflict in order to be able to choose the time and place for the battle realize that they must go with the tide and the government, which equally sought to calmly ignore the extra-constitutional demands of the house and sent the ministers to the house with the conciliatory speeches, realize that the governmental policy has failed. Since the government declined to give the house satisfaction regarding the continued executions in the provinces or bring to book the local officials whose tyranny is fanning the flames of popular indignation, parliament has had no alternative except the immediate insistence on its demand for the dismissal of the cabinet.

LIVELY SCENE.
The scene at yesterday's session when the house refused to listen to the ministers and practically drove them from the rostrum clearly presents the issue. The emperor must dismiss the cabinet or fight. In yielding to the militant spirit of the radicals upon this point, the Constitutional Democrats again solidified the opposition, which was on the verge of dissension over the agrarian question.

—Dissensions of which the government is eager to take advantage, it being reliably reported that the government has planned to make a direct appeal to the peasantry by distributing to the land hungry peasants on easy payments 3,500,000 acres of crown lands on the right bank of the Volga and in the southern and central provinces without awaiting action of parliament. This step is strongly advised by the leaders of the nobility who are holding a general congress here. The members of the nobility are perfectly aware that the parliamentary program, if adopted will wipe out landlordism in Russia and that fair price which the program offers for their expropriated property will not save them from economic ruin. Therefore, the nobles are organizing in order to make a stiff fight for the preservation of their prerogatives. While a few of them apparently read the signs of the times aright and are in favor of making the best of a bad situation, the majority are stiff-necked aristocrats who are not in favor of yielding an iota. They even hesitate to endorse the moderate government program and have sent a message expressing their loyalty to the emperor, in which they did not even mention the existence of parliament.

AUCTION SALE.

Of twenty good dairy cows, fresh from my ranch, also ten good horses and wagons. Sale Saturday, June 9, 1906, at 2 o'clock p. m. in corner East Fourteenth street and Prospect avenue, near High street, Fruitvale, Cal.

Particulars, call or address Owner, 1206 Josephine st., North Berkeley, Cal.

INVESTIGATING ALLEGED FRAUDULENT ELECTION

DENVER, June 6.—Judge John I. Mullins in the criminal division of the district court today entered formal orders for the calling of a grand jury to investigate the alleged frauds in the election of May 15 for the setting aside of District Attorney George Stidger and the appointment of a special prosecutor and for the appointment of jurors to select the grand jury. This action was taken on petition of the Honest Elections League. The court postponed further proceedings for five days.

Judge Mullins fined Fred A. Williams, chairman of the Republican city and county central committee, and William T. Davoren, chairman of the Democratic city and county central committee, \$200 each and J. P. Brady, chief clerk of the Denver Gas & Electric Company, \$50 for contempt of court in refusing to be sworn in the election investigation. The attorneys for the various defendants gave notice that they would ask the Supreme court for a writ of error.

A word about the prices. As we are direct importers we can save you from 20% to 40% on any of the above merchandise.

OFFICERS ENGAGED IN BATTLE

REBELS QUICKLY REPULSED

Lively Contest Between Guatemalan Troops Are Members of San Francisco Department Successful in Battle

SAN FRANCISCO, June 6.—Detective Sergeant Charles Taylor and Policeman W. J. Kavanaugh, under the command of Captain of Police Duke at Portsmouth square Monday night, settled temporary differences with a group of men who would have brought delight to the heart of the hungry night fans of the city. All of the settings of a championship affair were at hand and two 200 pound bluecoats provided the fast entertainment.

One of the contestants was in good condition owing to the fact that they have been compelled for six weeks to pass through the burnt district on foot. There were ducks, swans, and hocks and hammers exchanged. Just before the going for the first round sounded Mr. Kavanaugh had a hammer on the point of the detective's chin and it was curtains. After the question of boxing ability had been settled the men shook hands and agreed that it was better that the limelight of publicity be directed in some other direction for fear that the commission would take a hard line in ending the question according to other rules than Queensbury.

Captain of Police Duke does not admit that he heard of the incident. He says he understands the men engaged in a wrestling bout of a severe nature. He has no further knowledge of the trouble.

WASHINGTON, June 5.—Guatemalan troops have been successful in defeating revolutionists along the Mexican and Salvadorean borders according to dispatches received by the state department from American Minister Combes at Guatemala City.

Mr. Combes dispatches indicate that large forces of revolutionists have been repulsed but are still threatening the Guatemalan borders. He speaks in praise of the excellent defense made by the government troops.

SILVER TAKES

QUITE A DROP.

NEW YORK, June 6.—There was an abrupt decline yesterday in the price of bar silver with a sympathetic fall in Mexican dollars. It was attributed to recent heavy sales of the metal for West Indies account. Bar silver fell from 67 1/2 to 66 cents an ounce and Mexican dollars to 61 cents.

URGES BILLS BE HURRIED

WASHINGTON, June 6.—Before the senate had begun business in earnest today Senator Hale took the floor to urge the importance of all possible promptness in the disposition of the appropriation bills.

"This," he said, "is absolutely necessary if we are going to adjourn before the end of this month and do the very best we may. It will be the very last day of the month before we can possibly get through."

He gave notice that immediately after the close of the routine morning business today he would move to take up the naval appropriation bill and he suggested that this bill should be followed by other appropriation bills. He called attention to the fact that there are six of the big appropriation bills still unacted on by the senate and said that the conference reports can be delayed with much less injury to business than would follow a similar delay in the consideration of the appropriation bills for the reason that the reports indicate a far more advanced stage of business than do the supply bills.

WILL OF JOS. CHIRARDELLI

The will of the late Joseph Chirardelli was filed for probate with the county clerk yesterday by Attorney Clarence Reed of the firm of Reed, Bushamer & Black. The estate is valued at about \$60,000 and consists of his interest in the chocolate firm of J. Chirardelli & Co.

The will left by the deceased is as follows: Oakland, Calif. U. S. A. Feb. 7th 1902. This is my last will and testament. I leave everything I possess to my dear wife Ellen B. Chirardelli. She will take care of our children Joe and Carmen. I request and insist that my body be cremated and that my ashes be scattered in the sea.

JOSEPH NICHOLAS GHIRARDELLI. I, J. S. or Codell, should my brother Domingo survive me, I would ask him as a last favor to see the above is carried out. I have utter trust in him. Domingo memento frater. JOE Memento fratris in a broad sense means brotherly remembrance. The petition is signed by Ellen B. Chirardelli, the widow of the deceased, whose residence is at the family home at 14 1/2 Market street in this city.

PRAYERS FOR PRINCESS BERLIN, June 5.—The funeral of the Crown Princess Frederick William is expected daily. Prayers continue to be said in the churches in her behalf.

WIFE SLEPT ON THE FLOOR

San J. Kitchen has brought divorce proceedings against Ella S. Kitchen and states that his wife has refused all manner of money upon her own part in making her sleep on the floor with her skirt on a pillow. She says they were married in 1902 and have one child of which she asks the custody.

Kitchen is alleged to be a victim of third and in catering to his cultivated manner has turned the pleasure of his home to his wife. In one of his more told her that he recently deceived mother was in and that he was glad of it.

MANY BABIES LOST AT CONEY ISLAND.

NEW YORK, June 6.—Coney Island was one seething mass of humanity Sunday, and those who furnished entertainment for the 500,000 people who journeyed to this popular resort breathed a sigh of relief when the crowds began to wend their way homeward. It was a jolly good-natured crowd, one that seemed to have but one idea—go as much en masse as possible.

The crowded condition of the streets was commented upon by the inhabitants of the island and a movement was suggested for having a board walk constructed and also for the railroad terminals to be moved back from their present location.

There were one hundred extra police on duty during the day, but their services were not needed as the greatest trouble encountered was with children who had become separated from their parents. Captain Hodgkin who has recently been assigned to that precinct started into consoling the little chaps and giving them candy, but a soon found out that the police could not permit this kind of consolation to the mass of little ones that are taken into that station house.

One of the hot frankfurter vendors became alarmed at the disclosures of the best trade methods in making sausage and stuck up a sign on his wagon stating that his sausage was made by an ykrast and was absolutely pure.

In spite of the cold water there were hundreds who took a dip in the ocean, but they did not remain in very long, at a time Birkhaan and Manhattan beaches were also well patronized during the day.

LANDLORDS WANT TO SELL PROPERTY. EKATERINOSLA, Russia, June 6.—Owing to the agitation among the peasants in this province the landlords are hastily selling their estates for anything they will bring.

TILLMAN ASKS FOR RATE BILL

WASHINGTON, June 6.—When the morning business had been cleared up in the senate yesterday Senator Tillman made an appeal for consideration of the conference report on the railroad rate bill.

We expect that the bill will be sent back to conference, he said, and it should not take long to do that. Senator Hale said he would give way if the conference report could be disposed of and if there could be assurance that all the new matter would be eliminated from the bill.

Mr. Tillman objected to having the conference instructed. At last the South Carolina senator moved to proceed to the consideration of the report on the rate bill.

CASSIE'S AFFIDAVIT IS INTRODUCED.

PITTSBURGH, June 6.—The deposition of Mrs. Cassie Chadwick was offered in evidence yesterday in the case of Mrs. W. C. Jutte against W. F. F. and F. N. Hoffstott. Judge Snaffer took the deposition, and said arguments on its acceptance would be heard in chambers. This means that the paper may never become public property.

FOUND THE BONES OF A CHINESE

SAN FRANCISCO, June 6.—The charred bones of a Chinese were found yesterday on Third street by Coroner Walsh. This makes the total death list from fire and earthquake 418.

MISSING MAN.

SAN FRANCISCO, June 6.—Chief of Police Dihan has received a letter from Mrs. J. D. Simmon 313 Clifton avenue, Logansport, Ind. inquiring as to the whereabouts of Robert E. Smith, formerly residing at 468 Eddy street. The missing man's mother wishes to hear from him.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Farrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Farler, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

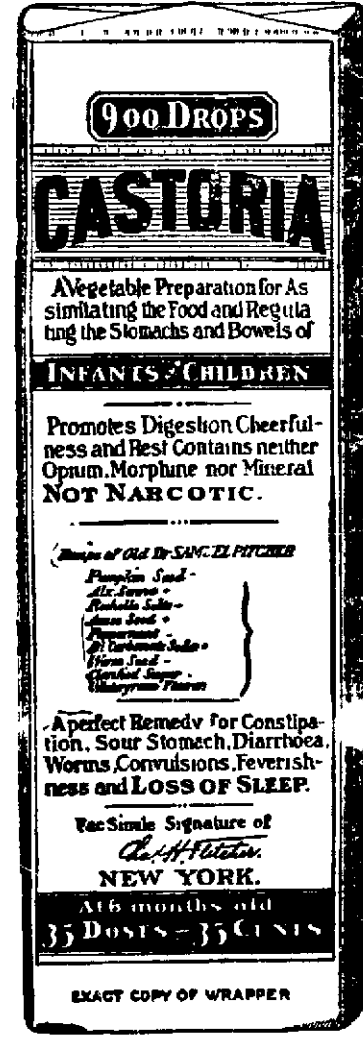

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

INSURANCE LIABILITY

JUDGE GARBER SAYS THE ABSENT STOCKHOLDERS ARE LIABLE.

SAN FRANCISCO, June 4.—Judge John Garber, the eminent counsel, gives it as his impression that the stockholders of Eastern and foreign insurance corporations will not succeed in evading liability for losses in the fire by reason of the fact that they were incorporated under the laws of states and countries where stockholders are not made liable for the debts of their corporations.

Judge Garber does not state this as his positive opinion. He says he has not looked into the legal questions affecting the insurance situation. Nevertheless, he remembers cases in point concerning other classes of corporations and he sees no particular reason why laws which apply to one class should not be equally applicable to another. On this question Judge Garber stated yesterday:

"I remember being engaged a few years ago in a lawsuit over a mining company which had been incorporated under the laws of West Virginia and had come to California to do business. The issue rested upon the question of stockholders' liability. The laws of West Virginia do not provide that stockholders shall be liable beyond the extent of their holdings, and the question to be decided was whether they could claim immunity under those laws or whether upon doing business in this state they became amenable to the laws of California.

"It was decided in that case, I remember, that a foreign corporation which voluntarily came into this state made itself, so far as its business in this state was concerned, amenable to its laws, and that the stockholders were liable.

"I have not made any investigation into the present insurance situation, so I am unable to give an opinion of any value to those interested. But upon the question of stockholders' liability, it did appear to me that a decision such as I have mentioned should be expected in a case affecting an insurance company, or any other class of corporation doing business in the state.

"Besides, there is a constitutional question involved. The constitutional provision of this state expressly provides that when a corporation organized under the laws of another state voluntarily comes into California to do business it shall not have the right to claim any special privileges, or such as are not accorded to institutions incorporated under the laws of California.

"On the whole then it is my impression that the law of stockholders' liability which obtains in California ought to apply to all corporations doing business in the state, whether incorporated here or not."

RUNAWAY YOUTH CAUGHT BY POLICE
Frank Conley, aged 13 years was arrested at Sixteenth street depot at midnight last night, and on being brought to the police station confessed to night Captain Lynch that he had run away from his home in Nevada. Beyond saying that he was born in Indian Territory, and that he had lived with his parents in Nevada, he would give the police no definite information.

PREPARE FOR A GREAT CHORUS
FOURTH OF JULY COMMITTEE
HARD AT WORK.

Editor TRIBUNE
A meeting of this committee was held last evening at the Merchants Exchange, and the task before it—the planning of a program—was entered upon with the greatest enthusiasm and a united determination to make this year's observance of our national anniversary, in Oakland, and occasion to be long remembered.

WILL PAY NO QUAKE LOSSES

INSURANCE MEN DECIDE ON A PLAN OF CAMPAIGN.

H. L. Atwood, chairman of the Fire Underwriters' committee of fifteen has just returned from a hurried trip to the east. Mr. Atwood is the personal representative of the Rochester German Insurance Company. In an interview he says:

"I am amazed at the hostility in evidence against the insurance men here. It was not so when I left. It is a mystery to me that I should exist, or have been created in the short time that I have been absent. It is extraordinary.

"In Baltimore, during the work of setting up claims, not a word of adverse comment concerning the insurance companies was printed. After I had arranged for drafts to the amount of \$400,000 to settle my company's losses, I left that city, and not a scintilla of adverse comment had I heard in all my stay there. Here I find a flood of abuse, of charges of crookedness, and suggestions that 'insurance men should be in San Quentin,' with a tide of hostility that is amazing, all sweeping against the insurance companies who are trying to settle their affairs here.

"Insurance men are business men, they are not orators. They are not going into print. But I am inclined to break over and say to all in California that the insurance men are not to be bullied, nor hounded, nor any settlement that are not just nor fair nor reasonable. I know that insurance men and companies will pay every dollar for which they are liable.

"They will most certainly not pay earthquake losses and that may as well be announced here and now as at any time.

"The meeting of insurance company representatives in New York last week settled upon a policy for those who were represented there. The representatives decided that earthquake losses will not be paid so far as they are concerned. That is to say where buildings were damaged by earthquake that fact will be taken into consideration in settling losses if the insured, and the company that insures him, cannot agree on a compromise under those circumstances, then the courts will adjust the matter. That is all there is to that.

"The insurance companies are prepared with proof when a question of photographic matter is in our hands. It will all be used to insure fairness on both sides. Incidentally, it may be considered as an extraordinary thing that in the first 2000 claims submitted to insurance men in San Francisco after the earthquake and fire, every man filing a claim swore that his property was uninjured by the earthquake. I say, that is extraordinary. Please consider the insurance men's position under the circumstances. Put yourself in their shoes. Remember that earthquake claims are in their policies, and that they believe an earthquake really occurred in San Francisco.

"In the light of that feeling, I repeat that earthquake losses most certainly will not be paid, and that a great host of photographers, amateur and professional, provided the insurance men with indisputable proof of earthquake losses, and that the insurance men have this material, to be used in the adjustment of claims. The insurance people propose to do what is fair and right. They do not propose to do anything else."

FUNDS ARE VERY LOW
COMMITTEE CANNOT REMOVE RELIEF CAMP AT PRESENT.

The executive committee of the Oakland Relief Committee met in the rooms of the Chamber of Commerce last night to discuss the question of removing the relief camp from Adams Point. Dr. E. E. Baker presided over the meeting and about fifteen members of the committee were present. Major Irwin appeared as the representative of General Greely.

RATIONS FOR THE POOR

HOW THE REFUGEES ARE TO BE HANDLED IN FUTURE.

Owing to the announcement that General Greely will on June 11th withdraw the military forces from the care of the relief camps and the distribution of rations to those dependent upon public support, the Oakland Relief Committee has decided to issue on that date the religious and fraternal organizations of the city about 100,000 rations in bulk which will, in its judgment, carry those who are in need of relief until June 30. After these rations have been transferred the relief committee will withdraw from that particular branch of its work. The number of rations has been computed on the basis of sixty per cent reduction of what they have been giving out before, which is believed to be a fair basis.

After June 11th no rations will be issued to people domiciled in Oakland, Alameda or Berkeley, except in special cases, and unless special recommendations by Major Irwin. After the 100,000 rations are distributed in bulk among the religious and fraternal bodies, there will remain on hand only about fifteen days' supply. Three experts are to be appointed some time next week to make a full and comprehensive report of its work and financial condition up to May 31. It will show a surplus in cash at that date of between \$50,000 and \$60,000. This amount has been materially reduced during the last five or six days by the payment of bills and defraying the expenses incident to the conduct of the committee's work.

After the departure June 11 of the 250 soldiers employed under General Greely in this city, the Oakland Relief Committee will be called upon to succeed the army in the performance of its duties. This will involve the employment of at least 100 men. The employment of the military as relief guards did not cost the relief committee a thing. It was free service rendered by the federal government. The special guards which will take the place of the army squadrons will be a paid force. This extra expense and the cost of the establishment of a new relief camp will soon use up the funds of the committee, leaving it in a helpless condition to provide further relief for San Francisco refugees and those Oaklanders who were employed as clerks, mechanics, porters, etc., in the relief camps. A committee of conference is to be appointed, consisting of Rev. E. E. Baker and two other members of the relief committee to meet with the finance committee of the San Francisco relief committee to consider the best way to handle the refugees after June 30. The Oakland committee will probably endeavor to have them all transferred to the camps established in the San Francisco parks where they can be well provided for without imposing any additional burden on the San Francisco relief committee.

A woman who is weak, nervous and sleepless and who has cold hands and feet cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness, and give strength and rest.

DRAGS WOMAN FROM WHEELS

TIM M'GRATH RESCUES WOULD-BE SUICIDE AT PERSONAL PERIL.

Tim McGrath, trainer of pugilists and one of the characters in the state world, is a real hero. At peril to his own life McGrath plunged in front of a Telegraph avenue electric car on Broadway yesterday afternoon and saved the life of Mrs. Milly McClure, who had thrown herself in front of the rapidly moving vehicle.

McGrath saw the desperate woman deliberately step in front of the car. He tried to prevent her but she broke away from him and was struck down and dragged by the fender. McGrath followed and seized the prostrate woman. With all of his strength he exerted the stocky athlete clutched the fender and swung around on the car step with his burden. So bent upon destroying herself was the woman that she fought and struggled with her rescuer as he held her safely out of harm's way.

After the excitement was over Mrs. McClure hysterically declared she had been deserted by her husband and that she was tired of life. She said she was married two years ago, and was suing for a divorce in Santa Cruz.

"If a woman wants to die, why shouldn't she be permitted to die?" was the only comment Mrs. McClure made when the man who saved her life offered her further assistance. Mrs. McClure was sent to the home of friends in Berkeley. She refused to give any more details as to her identity.

A Rustic
Was asking his sweetheart what she would take. This happened at Lehnhardt's. "Oh, it's immaterial," she answered. The idea of calling ice cream immaterial. Eating is the most material thing in our daily existence—especially ice cream to one of feminine construction. Everything is material at Lehnhardt's—even his angel's food comes under that classification. The nearest approach to the immaterial is a glass of Ice Cream Soda with a plate of Napoléon on the side.

WILL ROW ON LAKE MERRITT

REGATTA IS TO BE PLEASING FEATURE OF OAKLAND'S 4th OF JULY CELEBRATION.

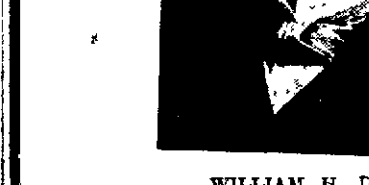

A rowing regatta on Lake Merritt will be one of the features of the Fourth of July celebration to be given in this city on the great national holiday. While the celebration this year is to be simple of its kind and inexpensive, the Merchants Exchange will try and have a band at the lake and the announcement was made by Director A. C. Bell that the P. A. A. O. had decided that as Oakland had been liberal in the past that this year without expense to the Exchange, there will be at least four races and perhaps more.

The literary committee appointed at the last meeting reported progress and promises to have something definite to report next week.

A complete list of the various committees appointed by Director D. C. Brown as chairman of the Fourth of July committee is as follows:
Executive.—D. C. Brown, chairman, Wilbur Walker, secretary; Theo. Gier, treasurer; H. N. Gard, J. T. Bell, W. E. Dargie, G. B. Daniels, F. W. Worcester, G. H. Meredith, C. A. Smith, W. J. Dingee, F. C. Havens, J. S. Wilson, J. F. W. Sohst, G. W. Arper.
Press and Advertising Committee.—H. N. Gard, chairman, J. S. Wilson, J. F. W. Sohst, Martin Ryan, E. A. Sherman.
Finance.—Theo. Gier, chairman; H. G. Williams, A. Jonas, W. J. Layman, A. H. Schluetter, D. Crowley, George Hoffmann, Wilbur Walker.
Afternoon Committee.—F. Sinclair.

HERE IS RELIEF FOR WOMEN

If you have pains in the back, urinary bladder or kidney trouble and want a certain, pleasant herb cure for Women's Ills, try Mother Gray's "AUSTRALIAN LEAF." Why Eight-Day Malt Is Best

THIS PROCESS GETS ALL OF THE FOOD VALUE OF THE BARLEY INTO THE MALT.

The usual four-day process of making malt for brewing may be compared to the unnatural rapid growth of grain planted in midsummer. It makes malt quickly, but at the sacrifice of the vital food quality of the grain.

Malt, as most of our readers probably know, is the life, the substance of beer, and the food value of any beer depends on the richness of the malt from which it is made.

Pabst exclusive eight-day malt is made in Nature's own way, by slow growth of the barley. All of the food value of the barley is thus retained in Pabst eight-day Malt, and makes Pabst Blue Ribbon Beer the richest beer in food strength.

Pabst Blue Ribbon Beer is always pure and clean. The choicest hops and chemically pure water are used with Pabst eight-day malt in the brewing. All the money in the world could not buy better, purer ingredients. The entire Pabst process is famous among physicians and scientists for its positive cleanliness. From the mashing of the eight-day malt until the finished product is poured into your glass Pabst Blue Ribbon Beer never comes in contact with anything that is not absolutely clean. It is fermented in sealed tanks into which no impurity can enter. It is run through sterilized tubes and pipes, stored for months in sterilized hermetically sealed storage tanks and pasteurized after being bottled.

This exclusive process places Pabst Blue Ribbon Beer beyond the possibility of contamination. It comes to you perfect in age, purity and strength, the best beer brewed.

CHRIS HAMPTON IS DUSKY JOE GANS RESUMES HIS PLACE IN THE LIMELIGHT

H. DAVIS TURNS THE TRICK

GIVEN HIS QUIETUS

Chris Hampton met a surprise at the Reliance Club's boxing exhibition last night, and as a result he lost his battle, but it was all his own fault.

The big fellow was pitted against H. Davis, who thought he had a good chance to take the blond young man's scalp. Although Hampton's friends and fellow club members declared the latest opponent would be as easily overcome as any of the others had been.

It appeared in the first round that Davis was no match for Hampton and the supporters of the pride of the Reliance club were shouting that he had his man whipped, but Chris either grew careless or lost his supposed cunning, for in the third round, after Hampton had fed around for two rounds without doing much of anything, Davis sneaked in a "haymaker" that took all the breath out of the other and thereafter Hampton was done for. When it became apparent that he could do nothing more, his seconds threw up the sponge.

The other part of the double main event was supposed to be between Henry League and Frank Flores, but League had sprained his back during the afternoon and could not go on. Jack Cordell was therefore substituted.

Flores proved no match for Cordell and in fact seemed to know little of fight-

ing of any sort. He spent most of his time in ducking and making wild swings that usually wound themselves around the other's neck. He left so many openings which Cordell failed to take advantage of that it almost seemed the latter was taking pity on his antagonist and permitting him to stay the time out.

The four rounds went off in this fashion. Cordell doing all the effective punching, and he was therefore awarded the decision at the finish.

OTHER BOUTS.

In the first bout, "Chieftie" Johnson, and Charlie Riley, were substituted for Loren Brown and Tommy Burns, the latter being unable to go on. Riley knocked Johnson out in the first round with a right swing on the jaw.

Ed Mennay won from Al Emerick in the second bout, getting the decision after four rounds of fierce milling, and Willie Haden knocked out Willie Edwards in the third round of the third contest, the latter deciding that he had had enough after taking some hard punishment about the body.

Loren Brown and "Doc" Letcher were substituted for J. Irwin and Jack Thomas in the fourth contest, and after a hard battle, in which Letcher was almost knocked out in the last round by a wild swing to the jaw, Brown was awarded a well earned decision.

MISS SUTTON IS VICTOR BY DEFAULT

LIVERPOOL, June 6.—The northern championship tournament, in which Miss May Sutton, the American champion defends the title of northern champion against the best British lady tennis players, opened yesterday at Alburgh, Lancashire. In the gentlemen's singles, H. E. Casagrand beat P. R. Hodges, 5-1, 6-3, 6-1.

Miss Sutton was given a walkover in the preliminary round of the ladies' singles. Mrs. Chapman, who was to have met the American, withdrew.

EMPIRES BEGIN ONE MORE SEASON

The Empire baseball team has organized for season of 1936 and would like to have a challenge.

This team has organized each season under different names and closed with brilliant records. This year it organizes with a stronger team than its manager has ever known and is to start on its career in a week or so.

It has chosen for its captain this year "Red" McCarthy, who is certainly a wonder, although he is small. John Griffin, the big man, is to be the mainstay in the back and will be assisted by Eugene Green, who plays short. McCarthy, the little man, will catch. Roy Williams will hold down first, John Smith second, Will Russell, third, and Emmet Galvin, Ed Martin, and Will Phillips will divide the outfield.

The Empires would like to play any team that is seventeen years of age.

LAW PREVENTS "RINGING" OF HORSES

It is with great pleasure that one notes that the New York law making "ringing" of horses a crime has gone into effect.

"Ringing" is the substitution of one horse for another for fraudulent ends. The poorer horse is run until by frequent losses his rating as a performer has been depreciated and everything about him is discounted. Then another horse, very like him, or colored and trimmed to look like him, very much faster, and infinitely more reliable, is brought forward and wins in a most unexpected and perplexing manner, says Sports of the Times.

This has frequently occurred of late years in the West, and it occurred recently in the East, where, thanks to the splendid system of turf espionage, the perpetrators were run to ground and punished to the extent of the turf law, this being by ruling them off every race course in the civilized world.

The new law makes the offender liable to a fine of not more than \$1500, or less than \$500, or by not more than a year in prison, or both, and it is a good law, which covers false registration of a race horse, thus recognizing the state racing commission and the Jockey club.

In addition to this new law, the system of registration recently advocated be put into active use, there is little doubt that "ringing" will have to be considered one of the past time of racing crime. Even the most hardened offender would hesitate to face the close searching lines of the registration bureau, with the possibility of the tangle leading him also into the mazes of fine and imprisonment, or both.

It is a long step in the right direction.

HAL CHASE IS GIVEN HIGH PRAISE

The New York Journal's baseball writer gives Hal Chase a nice boost in the following lines:

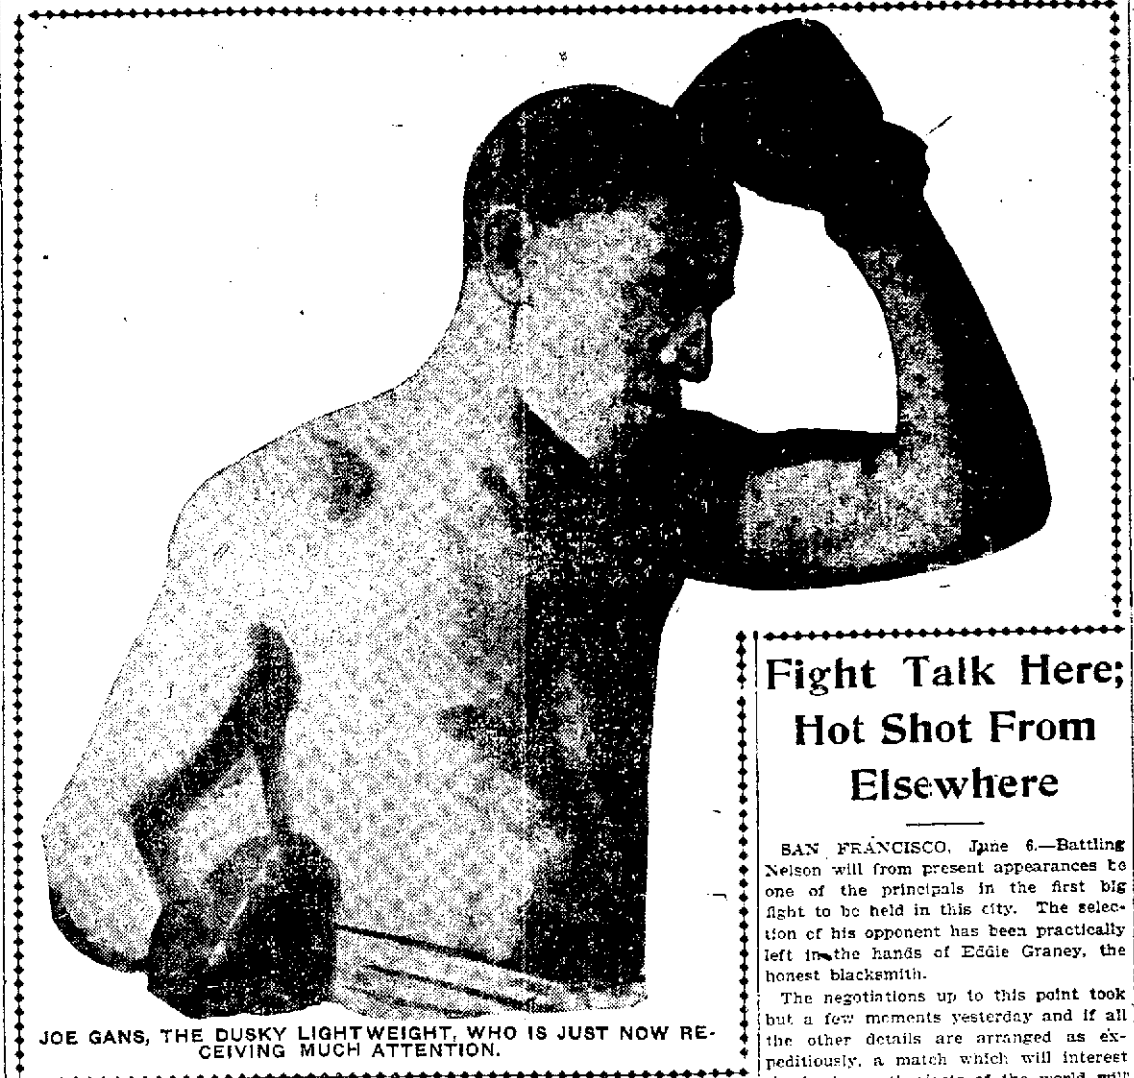

"That sterling youngster, Hal Chase, is playing just now the most brilliant game of his career, and even in his present company, his work stands out as almost a thing apart. Many are the close followers of the game who believe that Hal will soon develop into the best first baseman the game has ever known. Even now, there is no man in either league playing the bag with more skill and dash than the California kid."

Long Tennessee Fight.

For twenty years W. L. Davis of Ball's Tenn. fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful. I began applying Buckle's Catarrh Cure, and the swelling disappeared, never to return. Best salve in existence. Twenty-five cents, at Good Bros. drug store, corner Seventh and Broadway and Twelfth and Washington streets."

UNION LEAGUE CLUB.

The Union League club will give an opening reception Saturday night at the new quarters in the L. W. Hallman house at Sacramento and Franklin streets, San Francisco.

JOE GANS, THE DUSKY LIGHTWEIGHT, WHO IS JUST NOW RECEIVING MUCH ATTENTION.

RELiance CLUB'S AMATEUR STANDING IS IN QUESTION

SAN FRANCISCO, June 6.—The Pacific Amateur Association will hold a meeting next week. The principal subject to come under consideration will be the amateur standing of the Reliance club of Oakland. "The club has worked up a boxing show for tonight, and has not asked the Pacific Amateur Association for a sanction," states T. Fitzpatrick, the president of the amateur body. In discussing the subject yesterday Fitzpatrick said: "The club has clearly forfeited its amateur standing by giving these shows without getting a sanction. They may think that the Pacific Amateur Association will not give them recognition. It is surprising how the amateur boxers have turned professionals now that it is not necessary to wear a cloak of amateurism. Lew Powell, who made such a strong bid for reinstatement as an amateur, and who was successful, has decided, now that he has won the championship as an amateur, to turn professional. Mark Shaugnessy is considering taking Powell under his wing and making matches for him. It may be that he will show up in Seattle, where there is some interest in the game at the present time."

SWEETHEART LEW POWELL MAY MEET WOLF

SAN ANSELMO, June 6.—"Battling" Nelson, Marguerite Belanger and her mother, with "Bat's" father and brother Charlie, arrived here on a late train yesterday afternoon from San Francisco, where they were visiting the ruins. A carriage conveyed them from the train to Fairfax, two miles distant, where they sat down to an Italian dinner. This was much enjoyed by the sturdy Dane. "Bat" was in the middle of the dinner when called up by telephone and gave the following characteristic interview:

"Well, I have just returned from San Francisco and we're all eating a good Italian dinner. The ravioli, spaghetti, sausage and other Italian dishes are favorites of mine. There is nothing in the rumor that we are going to be married this trip. Was I glad to see her? Yes, we were glad to see each other. Dad, who is several years younger than brother Charlie, who is a church member, wanted to see San Francisco, so I made up a party consisting of Dad, my future mother-in-law, my brother Charlie, Marguerite and myself, and went to San Francisco on an early train this morning. We were going in an automobile, but finally took a car. Marguerite enjoyed the trip immensely."

"Speaking about McGovern, why, there is nothing to him. One or two rounds and he would be out. I am going to Larkspur at once to get my trunk and straighten out some affairs. I would like to stay over in Marin county a week and see my friends here, but business engagements in the East are too tight to leave tonight. More spaghetti for us before it gets cold. Good night."

Outwits the Surgeon. A complication of female troubles, with catarrh of the stomach and bowels, had reduced Mrs. Thomas S. Austin of Leavenworth, Ind., to such a deplorable condition that her doctor advised an operation, but her husband, fearing fatal results, postponed this. Dr. Electric Bitters, and to the amazement of all who now her, this medicine completely cured her. Guaranteed cure for torpid liver, kidney disease, biliousness, jaundice, chills and fever, general debility, nervousness and blood poisoning. Best tonic made. Price 50c, at Good Bros. drug store, corner Seventh and Broadway and Twelfth and Washington streets. Try it.

DEL MONTE AS A HOME RESORT.

Hotel Del Monte, by the sea, near old Monterey, is open as usual. All outdoor attractions. Special terms for families who make this their home.

Fight Talk Here; Hot Shot From Elsewhere

SAN FRANCISCO, June 6.—Battling Nelson will from present appearances be one of the principals in the first big fight to be held in this city. The selection of his opponent has been practically left in the hands of Eddie Graney, the honest blacksmith.

The negotiations up to this point took but a few moments yesterday and if all the other details are arranged as expeditiously, a match which will interest the boxing enthusiasts of the world will result.

Graney was pursuing the peaceful avocation of shoeing horses yesterday when Billy Nelson dropped in on him. The two have been on particularly friendly terms since last September, when Graney insisted that Nelson was entitled to the \$5000 which manager Jimmy Corbitt retained because he was not in the ring with Britt at the appointed hour. After some casual conversation yesterday, Graney told Nelson he ought to help out the sporting situation here by signing Nelson to fight in this city. After a moment's reflection Nelson said: "I will match him against any 133-pound man in the world that you may select."

While Graney will not say what man he will select, it is known that he has had Joe Gans in mind for some time. He would like to see the lightweight champion fight with a white boy, and Nelson is the only one now before the public who is thought capable of performing the trick.

Graney and Nelson had no further conversation regarding the matter, so it is up to the promoter to make the next move. His present plan is to hold the event, if it can be arranged, on September 9. July 4 would be a desirable day, but President William Greer Harrison, of the Olympic club, is planning for a great festival of games in Golden Gate Park on that occasion. This will be free to the public. Graney would not attempt to run a show in opposition on that day, as he has the kindest interest in the Olympic club.

The present status of the fight trust is hard to determine. When questioned about it, Graney looked wise and said: "I don't know how badly shaken the fight trust was by the earthquake. I have been so busy shoeing horses that the trust slipped out of my memory."

WILLIE LEWIS TALKS OF GANS' CROOKEDNESS

NEW YORK, June 6.—The following statement has been issued by the manager of Willie Lewis: As to another fight between Lewis and Gans, why, what is the use of it? Lewis is a champion, and Gans is a crook. Lewis is a matter of record. Gans refused, but he fought others, and laid claim to being able to make that weight. Gans didn't want Lewis.

After two years Lewis gets six rounds with him. Lewis wins, and what is the result? Gans says Lewis is overweight, and (Gans) is not in condition. Gans' critics declare he was pulling, but the facts of the matter are these: Lewis weighed 125 pounds, and weighed Gans down, and Gans refused to do it. This is a matter of record. Gans refused, but he fought others, and laid claim to being able to make that weight. Gans didn't want Lewis.

If the pair fight for twenty rounds Lewis would knock him out. In fact, he would knock him out in a couple of more rounds the other night. But what credit would he get? None, because it would be the same old story: "Gans laid down." I am satisfied Gans was trying, so was every good judge that witnessed the fight and saw the champion's mug after it was over. But you can't satisfy those who refuse to trust Gans.

I do not fear to make another match; in fact, would be delighted to do so, for a knockout over Gans would clinch Lewis' claim to the welter title. The credit would be lacking, so I pass him up.

The time may come when the public will recognize Lewis as the star welter, and then I may give Gans another chance and demonstrate that Willie is a champion, and Gans is a crook. I must say that he wants to fight Gans anywhere and any number of rounds. He has fought him once and has his number.

DAN McKEETRICK.

Manager of Willie Lewis.

SHAKE INTO YOUR SHOES

OAKLANDERS DRUB

AUSPICIOUS HOMECOMING

THE FRISCO OUTFIT

There was a fitting homecoming yesterday. The Oaks came back to their own stamping ground and incidentally they handed out one good trimming to a certain outfit known as the Seals. Oscar Graham was in the points for the Commuters, and he was very chary with gifts. In fact, the six hits that he allowed to chalk up counted for nothing, the only run that the Refugees gave coming in the last period, without the assistance of a single bingle.

O'Brien, who secured his release from Mike Fisher in order that he might figure on the payroll of the Swingmets, held down the slab for the rest from across the bay, and the Oaks found him when it seemed right to them that runs should come home. A trio of bingles in the second period netted one tally, two safeties in the eighth yielded a second score, and to make things certain the Van Haltenites slugged for extra bases in the last spasm, bringing two men around the bases to the pen.

Aids from the fact that it took a trifle over long the game was a good one, and the victory for the returned travelers seemed auspicious. The home team reached here preceded by all sorts of rumors of disruption and all sorts of hard luck stories. Despite these assurances of ill they presented a formidable lineup, and they played good ball. If they hold their gain this week should see some desperate struggles.

The score in detail:

The Story of the Flour Trust.

The people concerned in the transaction relating to the charity flour have had full opportunity to make their explanations to the public. Criticism in advance of full detailed information has been indulged. Condemnation on insufficient evidence has been meted out, but now that there is no longer any doubt about the nature, character and motive of the transaction, the facts are sufficiently understood to justify comment and criticism without danger of doing anyone connected with this affair any injustice.

The story is susceptible of very clear rendering. Fearing that the homeless and helpless people of San Francisco might be wanting for bread, the generous people of the East donated, and the railroads carried free, a very large quantity of flour. When measured by the supplemental wants of the people and by the volume of demand for breadstuffs, it was proven that a surplus of flour existed in the amount of seventy thousand barrels; or, according to one estimate 9,000,000 pounds. The suggestion of converting this flour into other necessities, by the indirection of selling it and obtaining its value in cash, was commonsense and obvious.

The suggestion having once been made, however, the flour trust came forward at once with a proposition to purchase, and a sale was effected to the trust, far below the actual market value of the flour.

It is now openly confessed that the trust sought to own and control this flour for the purpose of keeping up the price of breadstuffs in this community. The trust purchased it at a rate below that which it desired to maintain the product, and the transaction was burdened with the proviso that it was not to be exported, thereby interfering with the export trade of the coast. The trust purchased the flour in order to hold it for a higher price than it had paid, and for the confessed purpose of maintaining a high rate for breadstuffs.

The flour itself was the gift of charity. It was donated by far Eastern communities, with the generous purpose of making breadstuffs free to those who had claims upon benevolence and generosity. By the methods adopted by the California trust, the profits of which inure to the citizens of California, this superabundant charity was made the instrument of forcing upon the consumers of bread a higher price than otherwise would have been maintained. Thus the generosity of distant communities was converted into an opportunity for the gratification of the illegitimate profit of a California trust.

The attorney representing the flour trust has declared that the managers of that trust have had a great injustice done them. We might ask, in all candor: does the foregoing rendering of the situation do the flour trust any injustice? In natural commercial intercourse, the relations of supply and demand regulate the price. Here was an instance in which there was a surplus flour, and consequently a situation in which a low price for the article would be legitimate, but the trust method has determined that a low price for the commodities in which the trust deals shall not under any circumstances be realized by the public. To protect the price of flour, which the trust, by virtue of its monopolistic advantages had determined to fix, the trust purchased the charity flour at a low rate, and combined it with the flour of home manufacture, so that the breadstuffs which had been donated, and for which the donors had received nothing, should contribute directly to the profits of the trust, and enable the trust by its manipulation to keep up the price of the California manufactured article. Trust methods have never had a clearer exposition than is afforded by this instance.

In the great economy of nature the earthquake came at its appointed time, to do its appointed work in the great mission of world building. It ruthlessly wrecked the homes and fortunes of men. But these blind forces of nature were not more coldly cruel than the blind greed of a trust that would subvert the noble purposes of a charity into an instrumentality of greed and rapacity.

The Reform Movement Menaced.

The movement in San Francisco for high license and a complete separation of the saloon from the grocery is in danger of getting loaded down. As a rule people like to take reform in broken doses, and many a promising movement for the betterment of social conditions has aborted because enthusiasts insisted on making the reforms so sweeping that antagonism was unnecessarily provoked. High license is an important issue in itself. Divorcing the saloon from the grocery is almost equally important. It will be an enormous gain if either proposition can be carried. To carry both at the same is all that the most sanguine reformer can hope for. If a Sunday closing project is tacked on, it is more than likely that the movement for excise reform will be made so unpopular that defeat will be inevitable.

It is idle to say that Sunday closing would be a good thing: an immense number of excellent people, who are neither drunkards nor publicans, do not want it, and will fight it to the bitter end. When these are allied with the forces opposed to high license and the separation of the grocery from the saloon, they are strong enough to carry the day in almost any large city. If this large and influential element in San Francisco be alienated from the excise reform movement, there will be no reform, depend upon it.

This is not a case of rejecting a salutary proposition, but of taking what can be had. Nor is it wise to sacrifice two most desirable reforms in the vain hope of carrying a third which will doom the attempt to better regulate and restrict the liquor traffic to an ignominious failure.

Mayor Schmitz has come out in favor of separating the saloon from the grocery, and his general attitude leads to the conclusion that he favors an increase in the license to an extent that would greatly diminish the number of saloons. But the Mayor is a German and a man of extremely liberal views in regard to laws which restrict the freedom of the individual. It is a foregone conclusion that he will vigorously oppose a Sunday closing ordinance, and the moment he ranges himself in opposition to a single one of the proposed reforms, the whole movement is weakened by division and disorganization. Therefore, the reformers, if they are wise, will stick to the program for higher license and restricting the retail of liquor to the saloon and dissociate it entirely from the grocery business.

H. E. Atwood, chairman of the fire underwriters' adjusting committee, who has just returned from New York, says he is amazed at the feeling in San Francisco against the insurance companies. He is easily amazed. Mr. Atwood says the companies will pay every dollar of their liabilities. What about the Traders of Chicago? But Mr. Atwood adds that earthquake losses will not be paid. Here is the pith of the difficulty. What are earthquake losses? If he means the actual damage caused directly by earthquake shock the public will agree with him. The underwriters are not liable legally or morally for such damages; but if damages resulting from fire are to be ascribed to remote earthquake action the complexion of the whole matter is changed. Mr. Atwood will find that the public is not disposed to be unjust to the insurance companies nor in a mood to enforce unjust exaction.

The Meat Inspection Issue.

It is difficult to see how the Chicago meat packers can withstand the demand for a searching investigation into their methods or continue their opposition to thorough government inspection. The report heretofore withheld from publication which the President has transmitted to Congress depicts a revolting state of affairs, a condition that calls for an imperative remedy and for measures which will render impossible the horrible traffic said to be carried on at the stockyards.

In the stockyards the report is that lard is made from hogs that die from cholera; that the meat inspectors are incompetent and overworked; that sanitary conditions at the packing houses are revolting; that preservatives are in common use, and that meat is sold to Americans that is unfit for exportation. These general ideas are reinforced by much detail. The commission is said to have had the assistance of Dr. Jacques, formerly the head of the Chicago inspection service, who was forced out of office because he insisted that his inspectors should inject kerosene into all condemned meat so as to render it unfit for food, or rather, we suppose, for sale. They found, so it is said, that animals suffering from "lump jaw" were regularly passed. There is no inspection of swine for hogs afflicted with trichinosis, except when intended for export. The microscopic inspection was for the benefit of foreigners alone. Spoiled meats were "doctored" with preservatives, so as to destroy odor and other evidences of unsoundness. Many packing house products bear false labels.

These allegations raise an issue which affects the good name of Americans abroad and public health at home. Therefore, they cannot be disposed of summarily, nor can the vital question they present be ignored. Unless some adequate method of inspection is provided the foreign demand for American packing house products will inevitably fall off, to the detriment of our export trade. This is a small matter, however, compared to the protection which should be afforded our own people.

The great packing house concerns have practically monopolized the slaughtering business in the United States. They control the trade in dressed meats, besides putting on the market a vast amount of canned and preserved meats, sausage, lard, etc. The consumers have no means of knowing whether or not this stuff is clean and healthful. They can be poisoned or imposed upon with impunity unless some official agency, clothed with the requisite authority, steps in and prevents rotten and diseased meats being placed on the market.

Suspicion of all canned and preserved meats has been engendered by the disclosures, and the trade must necessarily be greatly injured if this suspicion is not removed. How can it be removed by anything save inspection, not cursory and purely formal inspection, but a rigid, vigilant inspection of every department of the meat packing industry that will amply protect the public from fraud and imposition. Heretofore the packers have obstinately fought government inspection, but since the President has forced the issue, by making public the McNeil-Reynolds report, it hardly seems possible that they can longer persist in their factious attitude. A continuance of their opposition to inspection will, under the circumstances, confirm the belief in the necessity for it.

THE TRIBUNE A VALUED EXCHANGE.

THE OAKLAND TRIBUNE, published every evening, has decided to issue a Sunday edition. THE TRIBUNE is one of the Mirror's most valued exchanges. It is full of news, very ably edited, and its special features are furnished by the cleverest writers in the state. We have no doubt that its Sunday edition will compare favorably with anything the metropolitan papers put out on that day.—Fresno Sunday Mirror

Oakland, Cal., June 4, 1906.

Dear Mr. Editor TRIBUNE:

I have been a resident of San Francisco for some years, but since the earthquake have moved to Oakland.

I should like you to insert these few lines in your valued paper for the credit of the carmen and people of Oakland.

Being used to getting shoved around any old way in San Francisco, we appreciate the kindness and accommodating spirit of the Oakland carmen.

Also the people of Oakland seem kinder and more accommodating than those in San Francisco.

The few weeks I have been here, and everything and everybody being so nice, I have made up my mind to locate in Oakland in the future. I am,

Yours very truly,
A FORMER S. F. RESIDENT.

Well-Known San Francisco men testify to the wonderful merits of

Nau's Dyspepsia Cure

Honest John Delaney, located for 27 years at 1204 Market street, says: "I have been a very sick man for 30 years with stomach trouble, vomiting twice a day during this time; had terrible pains in the pit of the stomach. Since commencing on

NAU'S DYSPEPSIA CURE have not vomited. It relieved me at once; have taken quite a few bottles and I consider myself perfectly cured. Two friends, Mr. Crawford Harris and Michael Burns, were also cured. Mr. Burns, a Mayor, can best recommend it to me.

His friend, Mr. Crawford Harris, 1615 Ellis street, says: "I was troubled with this for 18 years. I have taken all sorts of medicine without any permanent effect. I must say, after I saw how it cured my friend, John Delaney, I commenced taking it about 9 months ago, and I am now entirely cured of a stomach trouble that almost killed me." Subscribed and sworn to before me this 22nd day of September, 1904.

J. L. KILPATRICK, Notary Public in and for the City and County of San Francisco.

Many medicines, like psylla, soda, charcoal, relieve stomach trouble, but they cannot cure. Nau's Dyspepsia Cure cures the cause. We have thousands of testimonials from all over the world. Nau's Dyspepsia Cure is sold by first-class druggists at \$1.00 per bottle, or six bottles for \$5.00. If not obtainable, send to

BERKELEY UNIVERSITY OF CALIFORNIA ALAMEDA

BERKELEY DANCER BERKELEY PROFESSOR PUBLISHES

EDUCATORS HOLD

POLICE SEE VAUDEVILLE STAR

CAUSES MOURNING

BERKELEY June 6—Edward Lawrence Nisson, sometimes known as Edward Lawrence, is very much sought after by the police of Berkeley and the actor folk, of the company which performed at vaudeville at the Lincoln theater at South Berkeley.

VICTIMS IN MOURNING
Mr. Nisson came to Berkeley a little over two weeks ago. He is a theatrical man, and he formed the acquaintance of Mr. and Mrs. Paul Vernon (stage name Cummings). Mr. Nisson explained that he saw a fine chance for a vaudeville company at the Lincoln theater, and invited the Vernons to join him in the enterprise. They consented, and the party was formed.

The Vernons played in the legitimate, so it was planned that Mr. Vernon should attend to advertising and other outside business, while Mrs. Vernon sat in the box office, and Mr. Nisson should be stage manager. He rented the hall from Dr. M. M. Rowley, the owner, hired a numerous company of artists, and was supposed to pay the rent, salaries and all other bills.

He didn't do it, however, and on Thursday evening he disappeared, leaving the performers stranded with salaries unpaid. He had paid \$25 for one week's rent, but he is said to have secured \$35 from Mrs. Vernon by stating that \$35 was the rent charged.

Before he departed, Mr. Nisson had managed to crowd Mrs. Vernon out of the partnership. He secured a receipt in his own name from Dr. Rowley for the rent and made individual contracts with the performers. This was a fortunate circumstance for Mrs. Vernon, as it relieves her from liability to those performers for their unpaid salaries. It was on Tuesday evening that the partnership was dissolved. Mr. Nisson on that occasion had been indulging in the flowing gown and Jack Sheppard, one of the company, was leading him around and trying to sober him. While in this condition he met the Vernons and engaged them in a dispute over the finances of the affair. He is said to have called Mrs. Vernon a liar, and Vernon thereupon knocked him down.

The Alvins, brother and sister, band artists, were members of the company who were mulcted by Nisson's alleged peculations, which reach the sum of about \$100. They went to Stockton and are playing there. But it is announced that they will return and undertake the production of vaudeville at the Lincoln theater.

SEARCHING FOR MANAGER.
The stranded company was doing a full business, and all would have been well had not Mr. Nisson got his fingers on the money and departed. Detectives are searching for the missing manager. It is thought he will undertake to go "on the road" somewhere with a picture show.

New Field of the Mathematicians Is Expoded.

BERKELEY June 6—A book of unusual interest to mathematical scholars has just been issued from the press of B. G. Teubner of Leipzig. The work is entitled, "Projective Differential Geometry of Curves and Ruled Surfaces," and is by E. J. Wilczynski, A. M., Ph. D., research associate of the Carnegie Institution of Washington, and assistant professor of mathematics at the University of California. Professor Wilczynski very entertainingly describes the character of the investigations which he has given to the public in his preface. He writes as follows:

In the geometrical investigations of the last century one of the most fundamental distinctions has been that between metrical and projective geometry. It is a curious fact that this classification seems to have given rise to another distinction, which is not at all justified by the nature of things. There are certain properties of curves and surfaces, etc., which may be deduced for the most general configurations of their kind depending only upon the knowledge that certain conditions of continuity are fulfilled in the vicinity of a certain point. These are the so-called infinitesimal properties and are naturally treated by the methods of the differential calculus. The curious fact to which we have referred is that, but for rare exceptions these infinitesimal properties have been dealt with only in the metrical point of view. Projective geometry, which has made such progress in the course of the century, has apparently disdained to consider the infinitely small parts into which its configurations may be decomposed. It has gained the possibility of making asser-

E. J. WILCZYNSKI, A. M., PH. D., WHO HAS JUST ISSUED A VALUABLE PIECE OF LITERATURE.

tions about its configurations as a whole, only by limiting its field to the consideration of algebraic cases a restriction, which is unnecessary in differential geometry. "Between the metrical differential geo-

BERKELEY, June 6.—An adjourned meeting of the board of education was held last night, the following members being present: President Weir, Dr. Lewis, Dr. Knowles, Sutherland, Professor Lewis, Haseltin and Superintendent Waterman. Member Smith was the only one absent, being away on a business trip to Los Angeles.

The clerk was authorized to advertise for bids according to the plans and specifications for the convenience for the Whittier and Columbus schools.

SCHOOL REPAIRS.
In the matter of grading the school yards in the Le Conte, Columbus and Whittier school yards, action was referred to the committee on school houses and sites.

The sanitary condition of the Le Conte school was brought up and briefly discussed. It was found by a committee of the board appointed to investigate the matter that the sanitary conditions of the school was bad. It was the will of the board to have the sanitary condition of the school to rest with the sanitary inspector. He was authorized to report the exact condition of the Le Conte school to the board. The San Pablo school was reported by the committee to be in excellent shape. No repairs due to damage done by the quake are necessary. Not a timber in the school building was hurt or injured to any appreciable extent.

MATTER OF BONDS.
The question of a bond issue was carried over to the next regular meeting of the board to be held on next Tuesday night. The matter of bonding the town to build new schools cannot be taken up at an adjourned meeting. Upon the motion of Director Lewis, the finance committee of the board was authorized to prepare resolutions calling for a special bond issue for high school, polytechnic and grammar school improvements.

CALL FOR BIDS.
The clerk was instructed to call for bids for shingling the building of the Longfellow school. The bids were ordered to be presented at the regular meeting next Tuesday night. In advertising for the bids it was to be understood that at least four inches of the shingles should be left exposed to the weather.

BILLS PAID.
The following bills were ordered paid: F. E. Sadler \$16.95, D. W. McLaughlin, \$62.50, Elizabeth J. Green \$15, A. Johanson, \$25, Coast Electric Co., \$15.25, Berkeley Electric Light Co., \$4.40, Charles Powell, \$11, O. F. Reynolds, \$2.50, John Boyd, \$2, R. Annis, \$28.72, Gorham Rubber Co., \$24.45, E. W. Wright, \$1.50, J. W. Armstrong, \$11.40, C. M. Clough, \$22.50, Oakland Gas, Light & Heat Co., \$5.80, Reddington & Co., \$2.25, L. H. Ramo, \$25.50, George D. Prentice & Son, \$137.65, R. Annis, \$20, F. E. Sadler, \$2.20, Oakland Gas, Light & Heat Co., \$5.25.

Superintendent Waterman handed in the following report of the school attendance for twenty days of the month of May, which was ordered placed on file:

Number of days taught.....	20
Number of boys enrolled.....	2145
Number of girls enrolled.....	2175
Total number enrolled.....	4320
Number of new pupils enrolled.....	69
Whole number of days attendance.....	78,615
Whole number of days absence.....	4,155

Total of pupils for the year.....	659

APPLICATIONS.
The following teachers' applications were received: G. A. Young, Miss E. L. Highy, L. B. Everett, Grace Park and May Freeman. All wished positions in the grammar schools.

RESIGNATIONS.
The following resignations were read by the clerk and approved by board: Lillian H. Foxland, from the grammar school and H. C. Root and Hope Jordan of the high school.

When the high school board met after the adjournment of the grammar school board, the following high school teachers were appointed for positions as teachers in the high school: M. C. James, principal, W. B. Clark, M. Irene Muller, Lillie J. Hamilton, Jennie W. Steeves, Fannie W. McLean, Helena W. Curtis, Eva M. Stone, Laura Frank, Annie C. McDonald, Cecelia B. Crouse, Mary B. Claves, Louise Holling, Grace Barnett, Nellie B. Bryant, C. S. Downes, Monroe E. Deutsch, Mary G. Maxwell, Claude Smallwood, Louise N. Howard, Margaret W. Brown.

A committee from the chamber of commerce came before the board to talk on the bond question, but as the board had already taken action in the matter, nothing was said.

REPORT EFFECT OF THE QUAKE

ALAMEDA HIGH SCHOOL BOARD LEARNS OF RESULT OF SHAKING.

ALAMEDA, June 6.—The high school board met last evening. Director Hanley reported on the damage done by the earthquake to the high school saying that much plaster had been thrown down and that the chimneys and roof needed repairing. The report was referred to the buildings and grounds committee with power to act.

Director Baker submitted a report on the salaries to be paid during the coming year. The principal of the high school will receive \$175 the same as formerly. All other teachers will be paid according to seniority of service. Those that serve one year will receive \$100 and each succeeding year \$5 additional until the maximum of \$115 is reached. Teachers formerly received only \$70 and the regular teachers \$100 without regard to seniority. The janitor will receive \$80 and the gardener \$15 to be paid for twelve months. William Nicholson was elected to succeed himself to these two positions. The election of the teachers was put over until the next regular meeting.

BOARD OF EDUCATION
The board of education then convened. The resignation of Miss Clinton E. Stone was received and accepted. Miss Stone was an instructor at the Wilson school.

Director Hanley reported on the necessary repairs at the different schools and his report was referred to the committee of the whole with power to act. The salaries will be the same with the exception of the music and drawing teachers who will have a raise of \$10 formerly receiving \$90.

The personnel of the teachers will remain the same with but few exceptions. A few vacancies will have to be filled. Miss Violet Brown was elected.

CONTRACTOR'S BILL IS CUT

MECHANIC'S LIEN MAKES A DIFFERENCE OF \$280 IN AMOUNT.

BERKELEY, June 6.—William P. Grant of 1735 Addison street, who is a contractor for the Longfellow school building, had a big slice taken out of his bill by the board of education last night at the adjourned meeting.

Grant presented a bill for work done to the amount of \$830, but this was cut down to \$550 because there was a mechanic's lien against Grant on account of services done by A. Murray, a sub-contractor on the same school building.

The board of education withheld the difference between the two sums amounting about \$280 as this is the sum that Murray says is due him for the work on the building.

LIBRARY METHODS TO BE DISCLOSED

BERKELEY, June 6.—An unusual opportunity is given in this year's summer session at the University of California by the special school of instruction in library methods. While this course is intended primarily for librarians, library assistants there will be room for a very few who have not been as yet actually engaged in the technical work and who will be admitted (after approval by the librarians of the university) as auditors with practically all the privileges of regular librarians. This course probably will not be repeated for several years. Applications for admission should be sent in to the librarian immediately.

Assistant manual training teacher Miss Marcia Taylor, now Mrs. Dufour, who resigned.

Superintendent of Schools Moore was granted a three weeks' vacation.

SKIN DISEASES

FIERY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; this fiery acid matter is forced to the surface through the pores and glands. Fustules are formed, discharging a sticky fluid which dries and makes a crust, causing intense itching. When the crusts or scabs are scratched off the skin is left raw and bleeding.

Sometimes skin diseases are in the dry form, and bran-like scales come on the flesh, or the skin becomes hard and dry, often cracking, and the painful itching causes acute suffering. It does not matter how the trouble is manifested, the cause is the same—an excess of acid in the blood. Salves, powders, cooling washes etc., while they relieve the itching and give the sufferer temporary comfort, cannot cure the trouble because they do not reach the acid laden blood. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable and one which acts directly on the blood with a cleansing, healing effect. S. S. S. neutralizes the acids, and purifies the blood so that the skin instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. Special book on Skin Diseases and any medical advice desired will be furnished without charge.

S.S.S. PURELY VEGETABLE.

REFORMATION OF JUVENILES

JUDGE WASTE ADDRESSES THE MOTHERS' CLUB OF BERKELEY.

BERKELEY, June 6.—The members of the Mothers' club of West Berkeley and their friends assembled last evening at the Mothers' club to listen to an address by Judge W. H. Waste who told of the manner in which criminals were helped by the juvenile court. He dwelt at length upon the discharged convict, who resolves to become a better man and in the course of his eloquent lecture he spoke of the vicious agents that tend to produce crime among children.

Here is the speech delivered by Judge Waste before the Kindergarten club. At the present time criminology and the treatment of prisoners and discharged convicts is an all absorbing topic. Societies and organizations are formed, books written for the purpose, and much study given to the subject. In recent years it has dawned upon the minds of those interested in this work that one of the most effective means of redeeming criminals and preventing crime is to purify the source of the great stream of crime.

The old way of dealing with the criminals is graphically told in that greatest of great books, "Les Miserables," by Victor Hugo.

Judge Waste quoted from that celebrated work as follows:

QUOTES HUGO
"Valjean having been sentenced to five years imprisonment for stealing a loaf of bread is sentenced repeatedly for trying to escape, until he has remained in confinement for nineteen years. At length he is released and given the yellow passport that describes him as a discharged convict. The paper that liberates him is the stigma that denounces him. Every honest man's door is closed against him until he knocks at the door of the old bishop. There to his great surprise, he finds welcome food and shelter. But the evil spell of his old life is still upon him. He cannot sleep for remembrance of the sufferings of the past. He is unable to rise in the night, robs his benefactor and flees with the precious metal. Of course he is captured and brought back. The officers of the law who have captured him lead him into the bishop's presence with the conviction of his guilt. The bishop places his hands upon the head of the man and says to him: 'You enter and before a word can be spoken exclaim: "Ah! Valjean, I am glad to see you. But I gave you the candlesticks, too, which are also of silver. Why do you not take them with the rest?"' Released and forgiven, Valjean resolves to become a better man."

NEW METHODS.
"Now enlightened movements and methods are being instituted to cope with crime among children and the handling of juvenile offenders. As one writer has very aptly said, 'Reformation is better than reformation.' As an editorial writer of a great daily recently expressed the same idea: 'It is far easier to keep boys straight than to correct moral deformities after they have become fixed.' In other words, it is better that a man should have never committed a crime than that he be reformed after having offended."

"Mankind is by nature prone to crime, and only those who can withstand temptation escape. If children be taught to keep away from crime and from the influence of criminals much can be accomplished along this line. The proper training of children to abhor crime is not, however, a part of my discourse, for I am dealing with the handling of children in the juvenile court, which deals with those who are so unfortunate as to be either fit subjects for criminals or those who have actually transgressed."

"One of the most vicious agents in producing crime among children and minors has been the promiscuous confinement of crime with hardened criminals in prisons and penitentiaries. One of the most vicious agents in producing crime among children and minors has been the promiscuous confinement of crime with hardened criminals in prisons and penitentiaries. One of the most vicious agents in producing crime among children and minors has been the promiscuous confinement of crime with hardened criminals in prisons and penitentiaries."

WILL BEAUTIFY RAILWAY DEPOT

SOUTHERN PACIFIC PLANS IMPROVEMENTS IN BERKELEY.

BERKELEY June 6.—Work upon the improvements that were promised some time ago by the Southern Pacific Railroad Company were begun yesterday. The company plans to beautify the station and the grounds around it.

A party of surveyors under the direction of George Leung, assistant engineer, were at that place early in the morning and spent the day in running lines and driving stakes.

"First of all the parallel spur tracks north of the station and east of the main tracks are to be taken up and relaid about eighty feet west of their present location. The mound of earth that serves as a bumper at the end of these spurs will also be removed. Light through the place where the mound is and straight to the station will be a bitumenized driveway bordered on either hand by grass plots and flower beds and separated from it by a brass rail fence. Carriages and baggage wagons will henceforth find their way to the station by this drive.

It is promised, also that work on the new depot will soon be begun and that it will be rushed to completion. The plans show a structure that will be a credit to the company and to the town.

ELECT OFFICERS.

ALAMEDA, June 6.—Alameda Parlor N. G. W. has elected the following officers: President, W. Peterson, first vice president, J. Smith, second vice president, M. H. Ryan, third vice president, W. J. Richter, financial secretary, C. T. Rose, recording secretary, A. V. Fisher, treasurer, L. P. Fischer, trustees, J. H. Peterson, surgeon, H. M. Pond, marshal, F. Schulte.

COME OUT CRIMINALS.
"Too often these youngsters emerge confirmed and often vicious criminals ready to offend at the first opportunity."

"The juvenile court is one of the enlightened movements now being put forth for dealing with this problem and is doing more to advance the good cause of protecting our boys and girls than any other force now working along this line."

Judge Waste further related how the state legislature had enacted the juvenile court bill in 1903 after ward amendment it in 1905. The purpose is to give young offenders a chance to reform and keep them from confinement with older and more hardened criminals.

"To children who behave the judge and the juvenile court are their friends and to those who do not behave he is an avenger, and through the fear thus implanted contributes towards their reformation."

An entertainment followed the lecture, after which refreshments were served.

A TIMELY DOSE

of Hostetter's Stomach Bitters may save you a long sick spell. As soon as you notice the tongue coated, appetite poor, bad taste in the mouth and sleep restless, commence taking the Bitters. Neglect is often the cause for many attacks of Bileousness and Stomach Troubles.

HOSTETTER'S STOMACH BITTERS

has proven its merit thousands of times in cases of Indigestion, Dyspepsia, Constipation, Bileousness, Headache, Stomach or Malaria. Be sure to try it.

HAS POSITION IN KENTUCKY

PROFESSOR ROBERTS LEAVES UNIVERSITY FOR HIS NATIVE STATE.

BERKELEY June 6.—After a service of three years at the university, Professor George Roberts instructor of agricultural chemistry and chemist in charge of the fertilizer inspection service, has resigned his position, and will return to his native Kentucky, where he will accept a position. After July he will be first assistant chemist in the agricultural department station of the Kentucky agricultural college located at Lexington.

Professor Roberts has been connected with the University of California for the past three years. He came here from the Lexington college, having been graduated from that institution. He taught in his alma mater for three years before coming west.

INSPECTION WORK.
The work of Professor Roberts while connected with the University of California has been almost wholly inspection service and seeing that the laws regulating the sale of fertilizers and requiring them to be sold under a guarantee were enforced. He has traveled over much of this state while engaged in the service. His last trip was to southern California where he attended a series of farmers' institutes and discussed the elements of fertilization in the soil and the uses and abuses of fertilizers.

The question of proper fertilization of soils in California, said Professor Roberts, in answer to a query, "is much more complicated and important than in many other localities. A great many orchards are set out in California, and the growers are buying large amounts of capital and heavy expense to the owners for each succeeding year. It is much simpler to experiment with fertilizing a grain crop for a single season."

LARGE PROBLEM.
"A much greater amount of fertilizers is used in southern California than in the northern part of the state. The citrus growers have developed the business of fertilization much more fully than elsewhere, and more interest is taken in the subject."

The last bulletin issued by this division of the agricultural department of the state university appeared in January, 1905. The next will be ready for press the first week in July. It will contain many matters of great interest for all farmers and fruit growers in the state who take pride in developing their industries to a higher degree of efficiency than at present.

Being asked how his special work here compared with the same work in Kentucky, Professor Roberts said:

WORK IN KENTUCKY.
"The matter of fertilizing crops in Kentucky is more one of how to fertilize annual crops, and is therefore much more simple than in California, where the question often takes the more complex form of caring for orchards and vineyards, and also phase gives rise to a very careful and scientific investigation of the whole business of soil elements and appropriate fertilizing. There is a great future for California, and the question of proper fertilizers, both in quality and quantity, is one of the most important questions for the farmer and fruit grower to solve by very careful, accurately measured experiments at home with various fertilizing materials used under various conditions. When the farmer is undecided as to how to use these fertilizers he should seek information, but many growers know how to use them already."

Professor Roberts has done most excellent service since he became connected with the University of California. He has made a large circle of warm friends, who regret to see him leave the state. They all, however, wish him well in his new sphere of duty. Who his successor will be has not yet been ascertained, but he will in all probability be a California and a graduate of the university.

THEY ADVANCE MURDER THEORY

ALAMEDA MAN'S WIDOW BELIEVES HE DID NOT END OWN LIFE.

ALAMEDA, June 6.—The theory has been advanced that Armand H. Kriete, who was found dead in the basement of his home at 815 Santa Clara avenue, Monday afternoon, may have been murdered. The circumstances under which the revolver was found, which is thought to be the one that ended the man's life, have led to the murder belief. The local police are now investigating the matter. Detective George Brown having been detailed on the case.

Brown has looked over the ground and states that he is puzzled by the circumstances. Mrs. Kriete, the wife of the deceased went to Berkeley to attend the concert of the Hawaiian band Monday afternoon. She returned to her home shortly after six o'clock. She went into the basement to secure some wheat to feed the chickens. There she found the body of her husband, lying over a couch. She says that she went up and touched his hand, and it was cold. She claims that she could see no revolver any place and that she thought her husband had passed away from heart disease.

When the house was searched, a pistol, containing one empty shell, was found in a room on the second floor. Mrs. Kriete denies that she carried this pistol up from the basement and all others who visited the scene of the tragedy also deny having handled the weapon. No blood stains were found in the upstairs room, where the pistol was discovered, and there were no trails of blood to the basement. It is therefore thought that Kriete could not have walked from this room to the basement.

The dead man is not known to have had any enemies and no reason for a murder has been ascertained.

The friends of the deceased scout the

CHIEF OBJECTS TO WIRING

FIRE DEPARTMENT HEAD THINKS BERKELEY COMPANY IS ENCROACHING.

BERKELEY, June 6.—The A. J. Coffee Company, which is installing the Gamewell police alarm system, had a slight misunderstanding with Chief Kenny of the fire department yesterday afternoon. Kenny objected to the changing of the fire alarm wires on the cross pole where the wires of the two systems run parallel. He claimed that the wires should not be disturbed and should be left on top of the poles where they were placed. The Gamewell people protested, but were overruled and Kenny ordered that the work should be stopped until the town trustees took some action in the matter.

On reading the contract it was found that the company had a right to run the wires of the two systems parallel on the same poles. This satisfied Kenny and he was made understood. The new wiring will probably be in place by August 1. Wires for the call boxes are now being installed throughout the town and the central station will be installed about the middle of July.

murder theory and say that the man committed the deed while temporarily demented.

The funeral was held this afternoon. An inquest is to be held Friday morning.

IF YOU DON'T
Succeed the first time use Herbine and you will get instant relief. A greatest liver regulator. A positive cure for Constipation, Dyspepsia, Malaria, Chills and all liver complaints. Write to: E. M. O'Connell, Texas, writes: "My wife has been using Herbine for herself and children for five years. It has cured her constipation and malaria fever, which is substantiated by what it has done for my family." Sold by Whelan's Drug Store, corner of Tenth and Washington streets.

MERCHANTS TO HELP INSURED

RESOLUTIONS ADOPTED BY
MERCHANTS' EXCHANGE AT
ITS LAST MEETING

The Merchants' Exchange of this city proposes to do what it can towards aiding unfortunate persons to collect their insurance from reluctant companies and to this end the following resolution introduced by Director A. H. Schueeler was unanimously adopted:

Whereas the adjustment and payment of losses caused by the conflagration of April 15, 1906, in San Francisco has been unduly delayed:

Resolved that a special committee of three be appointed to report to the Merchants' Exchange the names of all insurance companies who are causing delay and inconvenience in the settlement of losses in the recent disastrous fire in San Francisco.

In speaking upon the resolution Secretary Walker said: "I am in favor of this resolution but at the same time I believe that some of the insurance companies are willing to pay but are delayed and hampered by the conditions. This has been the greatest fire in the world's history and the adjustment of losses, on all proportion to the ordinary run of business. For these reasons I do not believe we should be hasty. The companies that are really trying to make prompt out of other people's misfortune, however I believe should be found out."

Director Hoffman—I heard of a company that offered a woman seventy-five cents on the dollar.

Director Schueeler—These companies have taken the premiums year after year and now they do not pay dollar for dollar.

President Harry Williams—I think the resolution a good one. We should try and find out just what these companies propose to do.

Director Ager—These companies that fail to pay up should be driven from business. Any company that has anything of its kind refuses to pay its just obligations at such a time should never be allowed to continue in business.

The vote was taken and the resolution adopted and President Williams appointed on the committee Directors Schueeler, Brown and Walker.

A committee from Mayor McCall's office, consisting of the exchange to the city, left by many merchants on sidewalks and in the streets was read and it was decided to have a circular letter written and sent to merchants throughout the city asking the co-operation in this matter.

No vote was given by Mayor Sherman of the coming celebration of the sixtieth anniversary commemorating the raising of the United States flag by Commodore John Drake Sloat at Monterey. The celebration will take place on July 7 and 8 and the Merchants' Exchange was asked to participate at the celebration in San Francisco.

F. A. Stearns secretary of the Oakland Real Estate Association was introduced to the directors by Director Briare and in a short address said:

"I believe gentlemen that we should look for consolidation as East San Francisco. It is only a question of time before it will be east side and west side. You can see it coming as sure as Brooklyn is now a part of New York."

Another point I wish to make is that there are twenty-four Oaklanders in the United States. A letter addressed to some one in Oakland, 17 S. A. would probably never get to its destination.

H. Longfellow, William Cluff & Co. and McKinley & Sautelle were elected members of the exchange.

Notice was called to the fact of the meeting to be held this morning by the joint committees on consolidation at the Chamber of Commerce.

Notice of the fifth annual meeting of the California Promotion Committee to be held at Napa on June 16 was given to the exchange and a general invitation to attend extended to all the members.

STREET CAR STRIKES AUTO

BERKELEY June 6—Henry A. Dodge of the Bailey-Dodge Real Estate Company narrowly escaped injury in an automobile accident yesterday afternoon as his vehicle was struck and damaged by a Telegraph avenue car at the corner of Dana street and Bancroft way.

Dodge was driving the car along Dana street toward Oakland when the accident happened. As he neared Bancroft way he failed to see the car which was approaching rapidly from the east. When almost upon the truck he succeeded in stopping his machine before he could reverse and back it off the tracks the car was upon him. One front wheel of the automobile was broken and the machine thrown from the tracks.

Dodge was the only person in the car and he escaped without injury.

PROGRESS AT ALL TIME

UNTIL FORTY DAYS PRECEDING THE NEXT ELECTION IN NOVEMBER.
IN ORDER TO FACILITATE THE

REGISTRATION, ATTENTION IS CALLED TO THE PROVISIONS OF SECTION 1097, WHICH READS AS FOLLOWS:

Sec. 1037. No person's name must be entered by the Clerk unless:

1. Upon the production and filing of a certified copy of the judgment of the Superior Court directing such entry be made.
2. If a naturalized citizen, upon the production of his certificate of naturalization, which certificate must be issued ninety days prior to the succeeding election.

tion, or upon his arrival, which it is
and out of his possession, which affidavit
must state the place and time of his
the time and place of his naturalization
together with his affidavit that he has
resided in the United States for one
year, and in this State for one year
preceding the time of application, so
that he would be an elector of the court
at the next succeeding election, provided
however, if such naturalized citizen who

have been previously registered as qualified elector in any of the counties, cities and counties of this State, his name must not be entered by the Clerk un-

3. If born in a foreign country, upon his affidavit that he became a citizen of the United States by virtue of the naturalization of his father while he was

the age of twenty-one years, and that
is or would be an elector of the county
at the next ensuing election.

4. In other cases, upon the affidavit
the party that he is or will be an elector
of the county at the next succeeding
election.

TABLES, DISHES, ETC. RENTED.

WE rent tables, chairs, dishes. Austin's 835 San Pablo ave.;

NATURE'S ESSENCE

Extracted from the Roots of Native, Forest Plants. Go Straight Back to Nature for Your Health. There is Your Strength.

Consider your body as an engine which supplies you with all activity of mind and body. Keep the machinery well oiled and it runs smoothly. It does not groan in doing its work. But let the stomach, which is the fire-box to the human engine, get "out of kilter" and we soon meet with disaster. The products of undigested and decomposing food is poison to the system.

We do not live on what we eat but on what we digest, assimilate, and take up in the blood. The blood in turn feeds the nerves, the heart, and the whole system, and all goes well with us if the blood be kept pure and rich. If not, then the liver, which is the human filter within us, gets clogged up and poisons accumulate in the body from over-eating, over-drinking, or hurriedly doing both. The stomach-up occurs when the blood is poisoned by the stomach and liver being unable to take care of the over-load. The red flag of danger is thrown out in the shape of eruptions on the skin or in nervousness and sleeplessness, the sufferer becoming blue, despondent and irritable, because the nerves lack nourishment and are starved.

Nature's laws are perfect if only we obey them, but disease follows disobedience. Go straight to Nature for the cure to the forest, there are mysteries there, some of which we can fathom for you. Take the bark of the Wild-cherry tree, with Mandrake root, Stone root, Queen's root, Bloodroot, and Golden Seal root, make a scientific, Glycine extract of them, and with just the right proportions, and you have Dr. Pierce's Golden Medical Discovery.

It took Dr. Pierce with the assistance of two learned chemists and pharmacists, many months of hard work experimenting to perfect this vegetable alternative and tonic extract of the greatest efficiency. To make rich, red blood, to properly nourish the nerves and the whole body, and cure that lassitude and feeling of weakness and nerve exhaustion, take Dr. Pierce's Golden Medical Discovery. It bears the badge of honesty upon every bottle in the full list of its ingredients printed in plain English, and it has sold more largely in the past forty years than any other blood purifier and stomach tonic. The refreshing influence of this

extract is like Nature's influence—the blood is bathed in the invigorating tonic which gives life to it and the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated in the system.

The "Discovery" cures all skin affections, blotches, pimples, eruptions and boils, heals old sores, or ulcers, "white swellings," scrofulous affections and kindred ailments. The "Golden Medical Discovery" is just the tissue builder and tonic you require when recovering from a hard cold, grip, pneumonia or a long siege of fever or other prostrating disease. No matter how strong the constitution, your stomach and liver are apt to be "out of kilter" occasionally. In consequence our blood is disordered, for the stomach is the laboratory for the constant manufacture of blood.

It is a true saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body, and the cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, usually the effect of poisons in the blood, is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful drugs, and has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of.

The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonial" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has the badge of honesty on every bottle wrapper, in a full list of its ingredients.

Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

PERCENTAGE OF LEAVITT ON LAND SALES NEW BUILDING

HELPING SMITH TO SECURE RECOGNITION BY SPEAKER AT WASHINGTON.

[Special to THE TRIBUNE] SACRAMENTO, June 6.—Both houses of the legislature have adopted a joint resolution asking Congressman Smith of the eighth district to call up the bill paying California five per cent of the money received by the United States for public lands sold within this state, and ordered the same to be forwarded to the speaker of the house of representatives in Washington. This bill was drawn for the purpose of getting money for the state for the rebuilding of destroyed state buildings.

In the senate, while the adoption of the measure was practically unanimous Senator Curtin strongly opposed it. "I am opposed," he said "to a resolution of this kind, which in effect, petitions the speaker of the house to recognize a congressman from this state on the floor of the house. If the representatives of California in Congress have not influence enough to be recognized by the speaker a request of this kind will not have the desired result. I believe we have good congressmen there and I am opposed to the great state of California sending a petition to the speaker of the house of representatives at Washington to have him recognize one of our congressmen there. I was opposed to a similar resolution on this floor some years ago. The resolution then had no effect. I am opposed to the resolution at this time."

THE MEASURE. The preamble sets forth that, while California is entitled under the law to five per cent of the money received by the national government for the sale of public lands in this state, she has received nothing, while other states have, from the same source, received from five per cent to twenty-six per cent. It furthermore sets forth "that the payment of this sum would be an act of justice to California and would, moreover, at this juncture, materially aid her to bear the added financial burden entailed by the recent disaster to the city of San Francisco. The resolution is as follows:

Resolved by the assembly and the senate of the state of California, jointly, that they respectfully request the Hon. S. C. Smith, congressman from the eighth district of the state of California to the end that he may call up Senate Bill No. 1021 for consideration and final action, and Resolved, that the secretary of the senate and the chief clerk of the assembly be directed to transmit immediately a copy of this resolution to the honorable speaker of the house of representatives of the United States."

ADVOCACY OF BILL FOR STATE HALL AT SAN FRANCISCO HAS GOOD EFFECT.

[Special to THE TRIBUNE] SACRAMENTO, June 6.—"It is time to stop telling San Francisco that we are sorry for her loss, that we sympathize with her, but that she must not ask for money. We want to substitute acts for this kind of talk and show that we want to have her built up. We want to show that we have confidence in her future by putting up a state building there and that will be worth more to her than anything we can do for her. It will show that we state has confidence in her and the knowledge of that confidence will extend throughout the world." Senator Leavitt of Oakland was the speaker. The time was when the bill appropriating \$500,000 for the erection of a building for state officers who are necessarily located in this city, was under discussion before the Finance committee of the Senate. There was evident a disposition to treat the matter lightly by some of the legislators present, but when Senator Leavitt referred to had ceased, there were disclaimers from some of those present that they intended to do nothing but was right by the stricken city. Senator Leavitt's manner was earnest in the extreme.

FEATURES OF THE BILL. The bill under consideration was found to be objectionable in some particulars and a committee comprising Senators Wolfe, Curtin and Leavitt was appointed to prepare a substitute measure. That measure has now been drafted and recommended, go through both houses of the legislature. Governor Pardee has intimated that he would be pleased to have a structure of the kind erected in San Francisco and, as a consequence, there is little doubt that he will sign the bill unless it should be discovered to contain very objectionable features. The presence, however, of such defects need not be feared because the bill, from the same source, received from five per cent to twenty-six per cent. It furthermore sets forth "that the payment of this sum would be an act of justice to California and would, moreover, at this juncture, materially aid her to bear the added financial burden entailed by the recent disaster to the city of San Francisco. The resolution is as follows:

Resolved by the assembly and the senate of the state of California, jointly, that they respectfully request the Hon. S. C. Smith, congressman from the eighth district of the state of California to the end that he may call up Senate Bill No. 1021 for consideration and final action, and Resolved, that the secretary of the senate and the chief clerk of the assembly be directed to transmit immediately a copy of this resolution to the honorable speaker of the house of representatives of the United States."

A similar bill will be introduced in the house where it will have the full support of the San Francisco delegation and nearly everybody on the floor because the erection of a state building in San Francisco is not a new question and the uses to which it may be put are well known to every person who has had anything to do with state affairs. In conversation with a number of the San Francisco delegates today, THE TRIBUNE correspondent ascertained that San Francisco has a number of pieces of property which are well located and any one of which could be donated to the state as a site for a new building. Either they could be sold and a more available spot be secured. It is the intent of San Francisco, however, to donate the land for the building to restore.

For Over Fifty Years Mrs Winslow's Soothing Syrup has been used for children's colic, always all pain, cures wind colic and is the best remedy for diarrhoea. 25 cents

CHILDREN ARE THROWN FROM BURNING HOME

CHICAGO June 6.—The eight children of Joseph Elondewski, ranging in ages from three weeks to nine years, were thrown from a second story window by firemen today when a blaze broke out in their home at 1098 Sacramento avenue. Escape for the children was entirely cut off and all of them must have perished had not the firemen dropped them out of the window, other firemen catching them as they fell. One girl was fractured and her arm recovered. All of the others were uninjured.

STRIKING MINERS ANXIOUS TO RETURN

WHEELING, W. Va., June 6.—By a two-thirds vote striking miners of the Hitchman Coal Company at McMechen last night decided to apply for work at the mines today thus severing the ties with the miners organization on the ground that the latter had not lived up to its contract respecting payment of wages benefits. An organized miners' organization will be formed, national in its scope. Two hundred diggers are employed at the Hitchman works.

FATAL ACCIDENT IN HERKIMER AUTO RACE

NUREMBERG, June 6.—Friedrich Vandessleben, one of the Herkimer competitors, in rounding a curve near here, struck a tree. Herr Werle, a representative of the competition committee who was in the car, was thrown out. His car was fractured and his breastbone broken. The injured man, who was taken to a hospital, was still unconscious when this dispatch was filed. By noon a hundred and twenty of the autos which started had arrived here and stopped for lunch.

HEART DISEASE WAS CAUSE OF DEATH

ST. LOUIS, June 6.—Heart disease caused the death today of Theodore Breuer, president of the St. Charles Savings bank, but his friends declare that the shock suffered by Breuer when he discovered that the bank's funds had been embezzled by Cashier Anton Mispagel was indirectly the cause of death. Mispagel was recently convicted and sent to prison for two years. Mr. Breuer was 75 years of age and organized the bank in 1867. His widow and five children survive him. Breuer had been a Republican presidential elector.

DRUNKENNESS A DISEASE

Remarkable Results Following the Orrine Treatment—Can Be Given Secretly.

Dr. Norman Kerr, an English authority on alcoholism, says: "No disease is more common than inebriety and yet none is so seldom or so slowly recognized."

There are but few families who have not one or more members afflicted with this terrible disease, for such it is. Will power alone will not cure the drink habit, but the scientific Orrine treatment is a tested and absolute cure. This treatment destroys the desire for liquor, so that the drink is not missed. We seek the worst cases and cure them with Orrine.

Leading ministers and charity workers endorse Orrine in the highest terms, for they have seen the drunkard's home become happy and prosperous through the husband's cure by Orrine.

In one year a leading druggist sold 5750 boxes of Orrine without having a single complaint. It is no wonder that other leading druggists throughout the country guarantee Orrine as an absolute cure for the liquor habit or money will be refunded. There are two forms of Orrine, No. 1, the secret remedy which can be given without the knowledge of the patient; No. 2 in pill form for those who wish to be cured. The price of either form is \$1. Write for free pamphlet on the cure of alcoholism to the Orrine Co., Washington, D. C. It is the one guaranteed cure for the liquor habit and in every box is a registered guarantee which entitles you to a refund of your money if Orrine fails to effect a cure. Orrine is for sale by all druggists.

PARDEE'S STAND IS SUSTAINED

LONG BEACH ENDORSES HIS CONSOLIDATION.

[Special to THE TRIBUNE]

SACRAMENTO, June 6.—A sample of the hostility of a number of the smaller towns which Los Angeles is striving to consolidate with herself into a city and county government was received today by Assemblyman Thompson of Los Angeles in a telegram as follows: "Long Beach, June 5, 1906. 'Hon. N. W. Thompson, Assembly Chamber, Sacramento Cal. Long Beach heartily commends governor on stand taken as shown by his call. It strongly opposes consolidation and a special session. Long Beach has worked for her position on the map and wants to maintain it.'"

"W. SCOTT SMITH, 'President Chamber of Commerce, 'F. H. DOWNS, 'Mayor' At the same time Senator Hahn, who represents Pasadena, told THE TRIBUNE reporter that he had been wired by people in his section to take no action toward ending Los Angeles to include Pasadena in the proposed consolidation.

"STILL MISSING. "Los Angeles will not come to this session of the legislature to enable her to consolidate into a city and county government," said a representative of that county today to THE TRIBUNE correspondent. "She wanted 'consolidation,' but got only 'water.' She got more water than she wanted."

This is practically the sentiment of many of the delegates from that section. And yet, while they have information as to what the consolidation and water scheme promoters want them to do, most of them are ready to take a hand to advance the interests of that section in the legislature.

WHAT DO WANT? In the caucus which was held there were Senators Pendleton, Carter, Housh, Hahn and Assemblymen Houser, Stanton, Truesee, McCartney, Wickensham and Thompson. The following telegram was ordered:

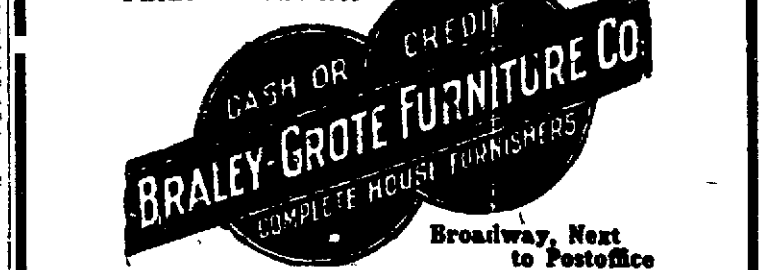

SAMPLED

TIRED WAITING

A man named Roberts, in Texas, wrote us the Renal Compound had failed in his case of Bright's Disease. We published his letter. As Fulton's Compound is the only preparation in the world that dares tell the whole truth, it attracted so much favorable comment that we decided to publish the next failure. We have now waited five months. Many letters from patients recovering have come but not one told failure in that time and we are tired waiting. Isn't this a very important item for people with kidney disease. As Fulton's Renal Compound is the only thing known that cures the most serious forms of kidney disease (Bright's disease) it is more effective than anything known in all kidney disorders. At all druggists and at the same price you pay for the common patents.

PRESIDENT WITNESSES THE EXERCISES

WASHINGTON, June 6.—President Roosevelt, accompanied by Mrs. Roosevelt, today attended the commencement exercises of the National Cathedral school for girls, an institution in the northwestern suburbs of Washington, in which their daughter Ethel is a student. The school is under the auspices of the Protestant Episcopal church and is directly under the supervision of Right Rev. Henry Y. Saterlee, bishop of Washington.

NEW CAR SERVICE TO WEST BERKELEY

BERKELEY, June 6.—A new car service was begun on the Key Route line today. A single car will hereafter be run between Berkeley station and San Pablo station, stopping at all intermediate points and connecting with the San Pablo avenue street car service. These cars are to run midway between the regular Key Route cars, or ten minutes later in the business hours of the day and fifteen minutes later the rest of the time.

THE WRECKED-SCHOOL DISPUTES

BILL IN WHICH OAKLAND IS INTERESTED AMENDED BY J. J. BURKE.

[Special to THE TRIBUNE]

SACRAMENTO, June 6.—One of the measures in which Oakland has special interest is that known as house bill No. 33 and was introduced into that body by the San Francisco delegation. It amends section 1417 of the political code relating to public schools. This aims to enable boards of education to compromise suits with contractors and especially contractors who were engaged in constructing schools at the time of the earthquake. The new provision in effect gives power to boards of education. "Without the vote of the district or portion of any school building in the course of construction during the month of April, A. D. 1906, in which the district is or shall hereafter be engaged and devote money for any of these purposes."

Assemblyman Burke of Oak and directed the attention of the assembly to this section and urged that it be amended by the deletion of the words "every claim demand and litigation of all kinds."

CURE SICK HEAD

Headache, get Carter's Little Liver Pills are equally valuable in constipation, curing and preventing intestinal complaint while they also correct all disorders of the stomach and liver and regulate the bowels. Even if they cure.

ACHE

Is the bone of so many lives that here is where we make our great boast. Our pills cure it while others do not. Carter's Little Liver Pills are very easy to take. One or two pills make a dose. They are strictly vegetable and do not grip or purge, but by their gentle action please all who use them. CARTER MEDICINE CO., NEW YORK. Small Pill. Small Dose. Small Price.

IMPROVEMENTS IN BANKING LAW

AMENDMENT MADE TO MEASURE BY MEMBERS OF BANK COMMISSION.

[Special to THE TRIBUNE]

SACRAMENTO, June 6.—J. Cal Ewing and Dunsmore of the state bank commission have been here for several days looking after the interest of the commission and the banking business of the state in the passage of a bill which is now before the legislature. They have succeeded in securing a favorable recommendation from the banking committee of the senate. In this they had little to do, because the practical features of the bill readily commended themselves to the committee. All the members of which have had much business experience.

CHANGES. Under this bill it becomes the duty of a bank commission, when it discovers a bank which is in a condition that unfits it to transact business, to immediately take control of such bank and all its papers and effects and hold them until order of the court. A controller is to be placed in active charge of the institution who must conserve its assets. The commission must immediately notify the governor and attorney-general of their act and set forth the condition in which they find the institution. The attorney-general on receiving such notification in writing and upon the request of the commission shall immediately commence suit in the proper court against the corporation for the purpose of preventing them from further doing a banking business and at the same time protecting the interests of the depositors.

to the board of education to settle disputes, and at the same time enables counsel for such organizations to exercise discretion in cases of such dispute.

Several of the schools of Oakland as well as those of San Francisco and in the event of its passage the dispute which has already taken place between the contractors and board of education will probably be settled under this bill.

DEMOCRATS MEET IN SOUTH DAKOTA

YANKTON S. D. June 6.—Delegates to the Democratic state convention met here last night with every county represented. A temporary organization was effected and the usual committees were appointed after which the convention took a recess until today. The temporary chairman is C. W. Barrett of Aberdeen and the temporary secretary is Henry Wentz.

SIR FREDERICK PEEL DEAD.

LONDON, June 6.—Sir Frederick Peel died today. He was born in 1823, and about fifty years ago held several important government positions. From 1859 to 1865 he was secretary to the treasury.

INSANE IS TO STAY AT HOME

ACCOMMODATIONS INADEQUATE WHILE NUMBER OF PATIENTS INCREASES DAILY.

[Special to THE TRIBUNE]

SACRAMENTO June 6.—We will have to provide quarters for these insane people in the hospitals or else when the hospitals are filled the insane will have to be looked after by the counties or perhaps the cities in which they are examined," said Secretary of State Curry today in a plea before members of the finance committee to money with which to erect cottages for such afflicted ones at the Napa asylum. "The asylum at Stockton has 1900 patients," continued Mr. Curry, "when it has accommodation for many below that number. Agnews has been obliterated. It costs a great deal to send insane to Ukiah, and it takes \$33 to send one to the asylum in the southern part of the state, while it costs only \$350 or about that to send a patient to Napa. Agnews can receive no more and it will be economy to send those who are sure to develop insanity to Napa and provide cottages to shelter them."

Secretary Curry's appeal had effect, because the finance committee of the senate later in executive session agreed to grant nearly all the requests of the finance committee holding the proposed cottage plan at Napa for some later consideration.

At this meeting Attorney John Stebbins of Oakland was present. He is attorney for the board of lunacy commissioners. The requests were as follows: Ukiah, \$25,000. Agnews, \$25,000. Home for Feeble Minded, \$72,500. Napa, \$85,000. The allowance for Agnews is intended simply to afford temporary relief pending careful consideration as to what shall be done in the matter of rebuilding the hospital which was utterly destroyed.

PRINCE HENRY IN AUTOMOBILE CONTEST

FRANKFURT-ON-THE-MAIN, June 6.—The Herkimer automobile competition from this city to Vienna began at 5:05 a. m. today. The racers were sent away at two minutes' interval without incident. Prince Henry of Prussia drew twentieth place. Percy Pierce of Buffalo, N. Y., was the only American who started.

At Wurtzburg Arthur Blackburn (England) who started third, had the lead. Oscar Heymann Berlin laid up at Wurtzburg, his machine being disabled.

There are few people who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. Herbine will keep it in condition. V. C. Simpkins, Albu, Texas, writes: "I have used Herbine for Chills and Fever and I find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown-up people, and I recommend it. It is fine for the grippe." Sold by W. H. Hart's Drug Store, Tenth and Washington Streets.

A Made-to-Measure Masterpiece

There isn't a custom bootmaker in New York who can build to order a better-looking shoe than any one of the new Regals. The same hand-wrought style-quality is plain enough in all of them.

All of which would only count in making good window displays if there were any "let-down" of comparison in the fit.

There isn't. If there is a custom bootmaker who can figure out a closer grading of shoe sizes than Regal quarter sizes guarantee, we'd like to see his tape measure.

We give you the same style and the same fit that you expect when you pay \$10 or \$12 to have a pair of shoes made to order—and we stand back of that statement, along with all the other strong claims we are making right along.

Send for Style Book. Mail Orders Promptly Filled.
